ONIX®

At ONIX, sustainability defines the way we design and produce. Our glass mosaic is crafted from 100% recycled glass in an efficient process powered by electric furnaces and on-site solar energy. We pursue a responsible production model that minimizes environmental impact while preserving the design excellence, quality, and innovation that distinguish our brand.

ONIX

At ONIX, we turn innovation into a defining feature and design into the core of our development. We are the world's leading manufacturer of glass mosaic, driving the industry through advanced technology, optimized production processes and an industrial vision focused on excellence.

We develop high aesthetic and technical value solutions for residential, commercial, pool and wellness projects, aimed at professionals seeking exclusive, responsible materials aligned with contemporary design standards. Each collection reflects our commitment to quality, precision and the ability to transform spaces through detail.

With more than two decades of experience, we continue to explore new creative possibilities without compromising the technical rigor and durability required of a high-performance product.

En ONIX convertimos la innovación en una seña de identidad y el diseño en el eje de nuestro desarrollo. Somos el mayor fabricante internacional de mosaico vítreo y lideramos el sector mediante tecnología avanzada, procesos productivos optimizados y una visión industrial orientada a la excelencia.

Desarrollamos soluciones de alto valor estético y técnico para proyectos residenciales, comerciales, piscinas y espacios wellness, dirigidas a profesionales que buscan materiales exclusivos, responsables y alineados con los estándares del diseño contemporáneo. Cada colección refleja nuestro compromiso con la calidad, la precisión y la capacidad de transformar espacios a través del detalle.

Tras más de dos décadas de trayectoria, seguimos impulsando nuevas posibilidades creativas sin renunciar al rigor técnico ni a la durabilidad que exige un producto de altas prestaciones.

Chez ONIX, nous faisons de l'innovation une véritable signature et du design le pilier de notre développement. Nous sommes le plus grand fabricant international de mosaïque de verre et nous sommes à l'avant-garde du secteur grâce à des technologies avancées, des processus de production optimisés et une vision industrielle orientée vers l'excellence.

Nous développons des solutions à forte valeur esthétique et technique pour des projets résidentiels, commerciaux, piscines et espaces wellness, destinées aux professionnels à la recherche de matériaux exclusifs, responsables et en phase avec les standards du design contemporain. Chaque collection reflète notre engagement en faveur de la qualité, de la précision et de la capacité à transformer les espaces par le détail.

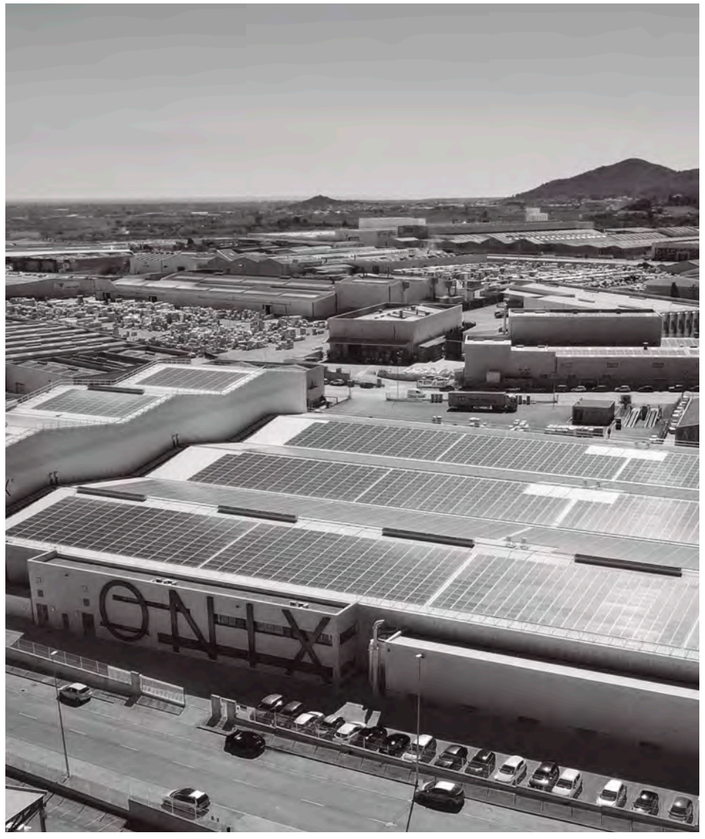

Avec plus de deux décennies d'expérience, nous continuons à explorer de nouvelles possibilités créatives sans renoncer à la rigueur technique ni à la durabilité exigées par un produit de haute performance.

ONIX

COMMITMENT TO SUSTAINABILITY

At ONIX, sustainability is an essential part of the way we design and produce. We manufacture glass mosaics using **100% recycled glass**, promoting circular economy principles and optimizing resources from the very beginning of the production process.

Our industrial model is based on energy efficiency and respect for the environment. We do not use fossil fuels and operate with **100% electric kilns**, largely powered by solar energy generated at our own facilities. This commitment ensures a clean, controlled production process aligned with the most demanding industry standards.

Material optimization, packaging reuse and responsible logistics solutions form part of a global strategy aimed at reducing environmental impact without compromising quality, durability or design. As a result, ONIX holds **ISO 50001 Energy Management System certification**.

Compromiso con la sostenibilidad

En ONIX entendemos la sostenibilidad como parte esencial de nuestra manera de diseñar y producir. Fabricamos mosaicos vítreos a partir de **vidrio 100% reciclado**, promoviendo la economía circular y optimizando los recursos desde el origen del proceso productivo.

Nuestro modelo industrial se basa en criterios de eficiencia energética y respeto por el entorno. No utilizamos combustibles fósiles y operamos con **hornos 100% eléctricos**, alimentados en gran parte por energía solar generada en nuestras propias instalaciones. Este compromiso garantiza un proceso productivo limpio, controlado y alineado con los estándares más exigentes del sector.

La optimización de materiales, la reutilización de embalajes y soluciones logísticas responsables forman parte de una estrategia global orientada a reducir el impacto ambiental sin renunciar a la calidad, la durabilidad ni el diseño. Como resultado, ONIX cuenta con la certificación **ISO 50001 de Sistemas de Gestión de la Energía**.

Engagement en faveur de la durabilité

Chez ONIX, la durabilité fait partie intégrante de notre manière de concevoir et de produire. Nous fabriquons des mosaïques de verre à partir de verre **100 % recyclé**, en favorisant l'économie circulaire et en optimisant les ressources dès l'origine du processus de production.

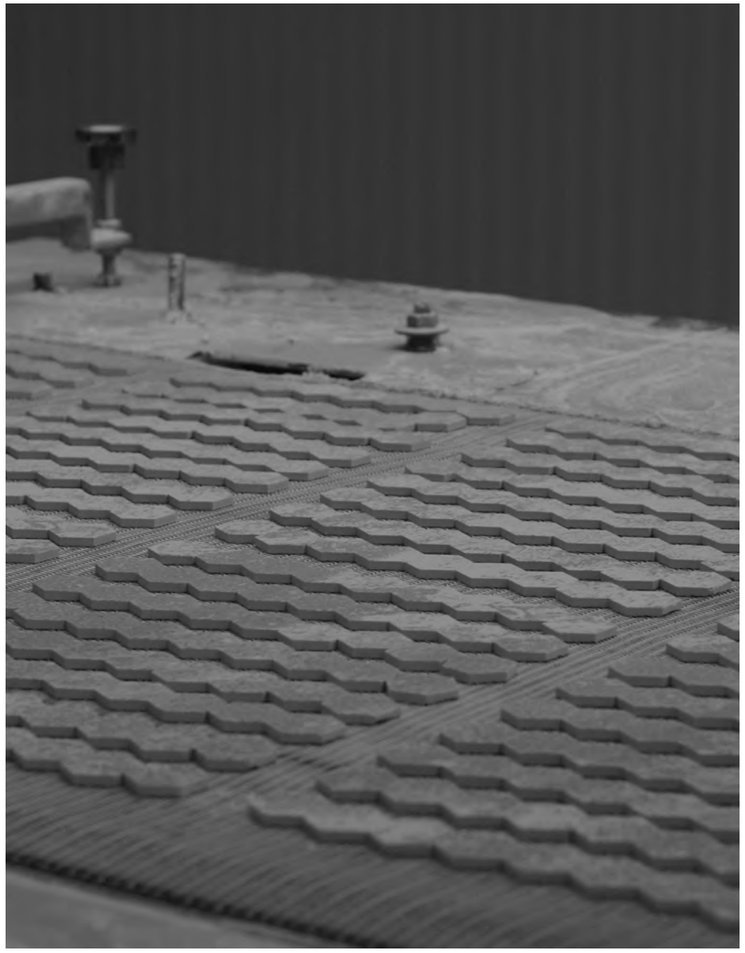

Notre modèle industriel repose sur des critères d'efficacité énergétique et de respect de l'environnement. Nous n'utilisons pas de combustibles fossiles et nous opérons avec des fours **100 % électriques**, alimentés en grande partie par l'énergie solaire produite dans nos propres installations. Cet engagement garantit un processus de production propre, maîtrisé et conforme aux standards les plus exigeants du secteur.

L'optimisation des matériaux, la réutilisation des emballages et des solutions logistiques responsables font partie d'une stratégie globale visant à réduire l'impact environnemental sans compromettre la qualité, la durabilité ni le design. ONIX dispose ainsi de la certification **ISO 50001 – Systèmes de management de l'énergie.**

VERSATILITY & PERFORMANCE

We conceive glass mosaic as an essential material for interior design, architecture, pool and wellness projects, both for its aesthetic versatility and its technical performance.

Its non-porous nature, resistance to humid environments and stability against thermal shock make it an ideal solution for residential spaces as well as high-demand contract projects. These qualities are complemented by hygienic properties and ease of cleaning and maintenance, key factors in environments where durability and safety are priorities.

Versatilidad y Prestaciones

Concebimos el mosaico vítreo como un material esencial en proyectos de interiorismo, arquitectura, piscina y wellness, tanto por su versatilidad estética como por sus prestaciones técnicas.

Su nula porosidad, resistencia a ambientes húmedos y estabilidad frente a choques térmicos lo convierten en una solución idónea para espacios residenciales y proyectos contract de alta exigencia. A ello se suman sus propiedades higiénicas y su facilidad de limpieza y mantenimiento, factores clave en entornos donde la durabilidad y la seguridad son prioritarias.

Polyvalence et performances

Nous concevons la mosaïque de verre comme un matériau essentiel pour les projets de design d'intérieur, d'architecture, de piscine et de wellness, tant pour sa polyvalence esthétique que pour ses performances techniques.

Sa porosité nulle, sa résistance aux environnements humides et sa stabilité face aux chocs thermiques en font une solution idéale pour les espaces résidentiels comme pour les projets contract à forte exigence. À cela s'ajoutent ses propriétés hygiéniques ainsi que sa facilité de nettoyage et d'entretien, des critères clés lorsque durabilité et sécurité sont prioritaires.

WATER COLOR CHART

Transforming Water Through Design

The Watercolor Chart is a reference tool that helps understand how water tones and reflections vary depending on the selected mosaic. This chromatic guide illustrates the interaction between color, finish, light and surroundings, enabling an accurate visualization of the final result.

Each shade influences the perception of water, generating effects ranging from crystal-clear and luminous to deeper and more enveloping atmospheres. The Watercolor Chart allows designers to anticipate chromatic behavior and ensure that the pool faithfully reflects the project's aesthetic concept.

Designed for architects, designers and detail-oriented clients, it is an essential reference for creating balanced, sophisticated and visually coherent pools.

Transformación del agua a través del diseño

El Watercolor Chart es una herramienta de referencia que permite comprender cómo varían los tonos y reflejos del agua según el mosaico seleccionado. Esta guía cromática muestra la interacción entre color, acabado, luz y entorno, facilitando una visualización precisa del resultado final.

Cada tonalidad influye en la percepción del agua, generando desde efectos cristalinos y luminosos hasta matices más profundos y envolventes. El Watercolor Chart permite anticipar el comportamiento cromático del agua y asegurar que la piscina responda fielmente al concepto estético del proyecto.

Concebido para arquitectos, diseñadores y clientes que valoran el detalle, se presenta como una referencia imprescindible para crear piscinas equilibradas, sofisticadas y visualmente coherentes.

Transformation de l'eau par le design

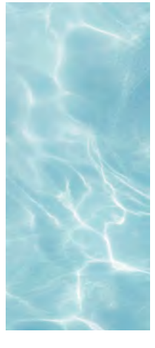

Le Watercolor Chart est un outil de référence qui permet de comprendre comment les tons et les reflets de l'eau varient selon la mosaïque choisie. Ce guide chromatique montre l'interaction entre couleur, finition, lumière et environnement, offrant une visualisation précise du rendu final.

Chaque teinte influence la perception de l'eau, générant des effets allant de rendus cristallins et lumineux à des nuances plus profondes et enveloppantes. Le Watercolor Chart permet d'anticiper le comportement chromatique de l'eau et de garantir que la piscine reflète fidèlement le concept esthétique du projet.

Conçu pour les architectes, designers et clients attentifs aux détails, il constitue une référence incontournable pour créer des piscines équilibrées, sophistiquées et visuellement harmonieuses.

01 Aqua Evolution

The evolution of mosaic for distinctive pools

016 Crystal
022 Vanguard Stone
028 Vanguard
042 Vanguard Iridis
052 Vanguard Gold

14–15

AQUA EVOLUTION represents a leap forward in design and functionality for aquatic environments. It brings together collections and technical pieces that expand aesthetic possibilities in swimming pools, from finishing solutions to vibrant designs, iridescent effects, and rich color palettes. Designed for projects that seek to go beyond the conventional, this line offers glass mosaics that shine with their own light and enable limitless creative customization.

AQUA EVOLUTION representa un salto en diseño y funcionalidad para entornos acuáticos. Reúne colecciones y piezas técnicas que amplían las posibilidades estéticas en piscinas, incorporando desde soluciones de acabado hasta diseños vibrantes, efectos iridiscentes y riqueza cromática. Pensada para proyectos que buscan ir más allá de lo convencional, esta línea ofrece mosaicos que brillan con luz propia y permiten una personalización creativa sin límites.

AQUA EVOLUTION représente une avancée majeure en matière de design et de fonctionnalité pour les environnements aquatiques. Elle réunit des collections et des pièces techniques qui élargissent les possibilités esthétiques des piscines, depuis les solutions de finition jusqu'aux designs vibrants, en passant par des effets irisés et des palettes de couleurs riches. Conçue pour des projets qui vont au-delà du conventionnel, cette ligne propose des mosaïques de verre qui rayonnent de leur propre lumière et permettent une personnalisation créative sans limites.

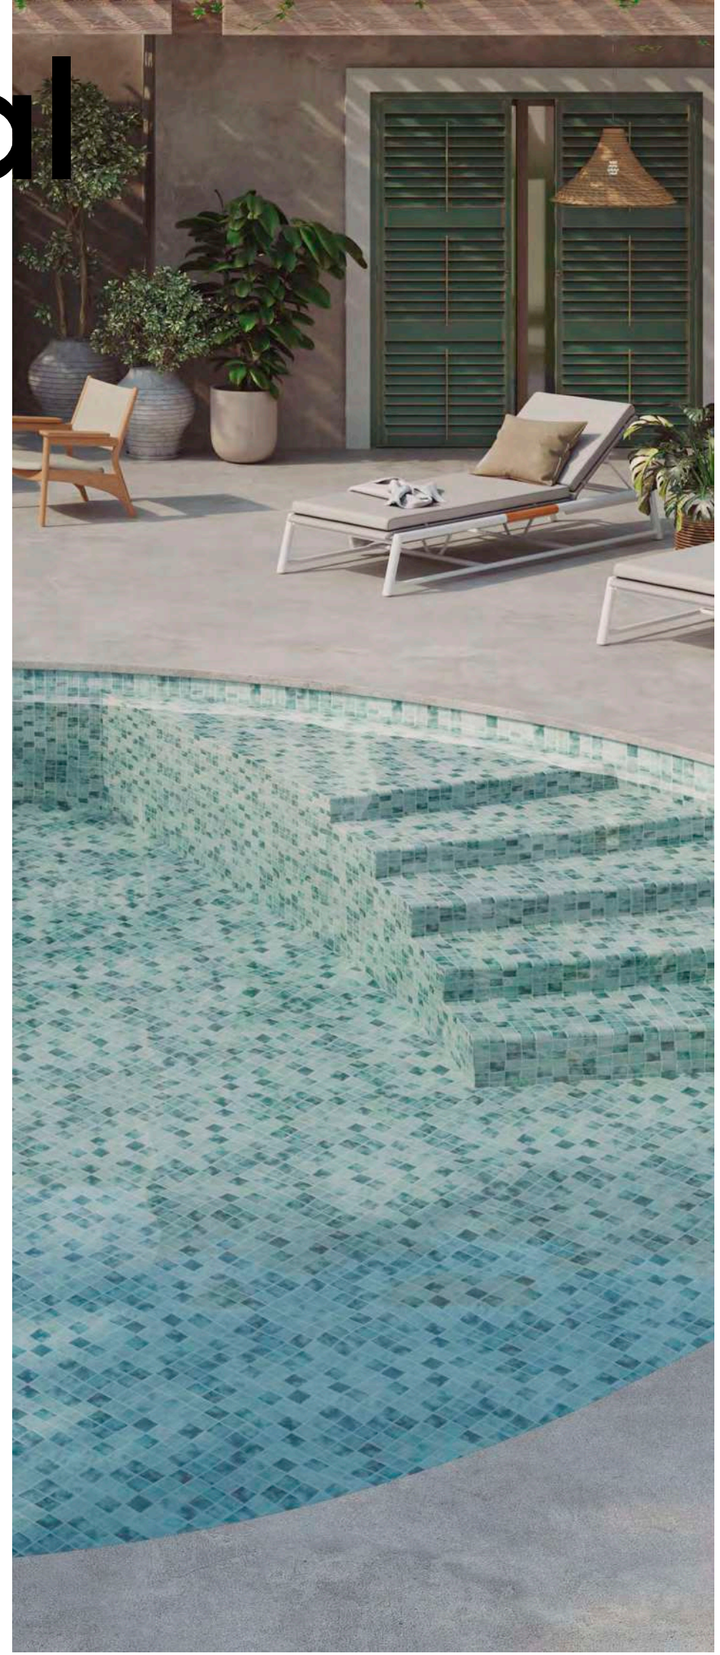

Crystal

Inspired by natural crystallization and the craquelure of artisanal glass, **CRYSTAL** blends matte finishes with luminous, organically emerging highlights.

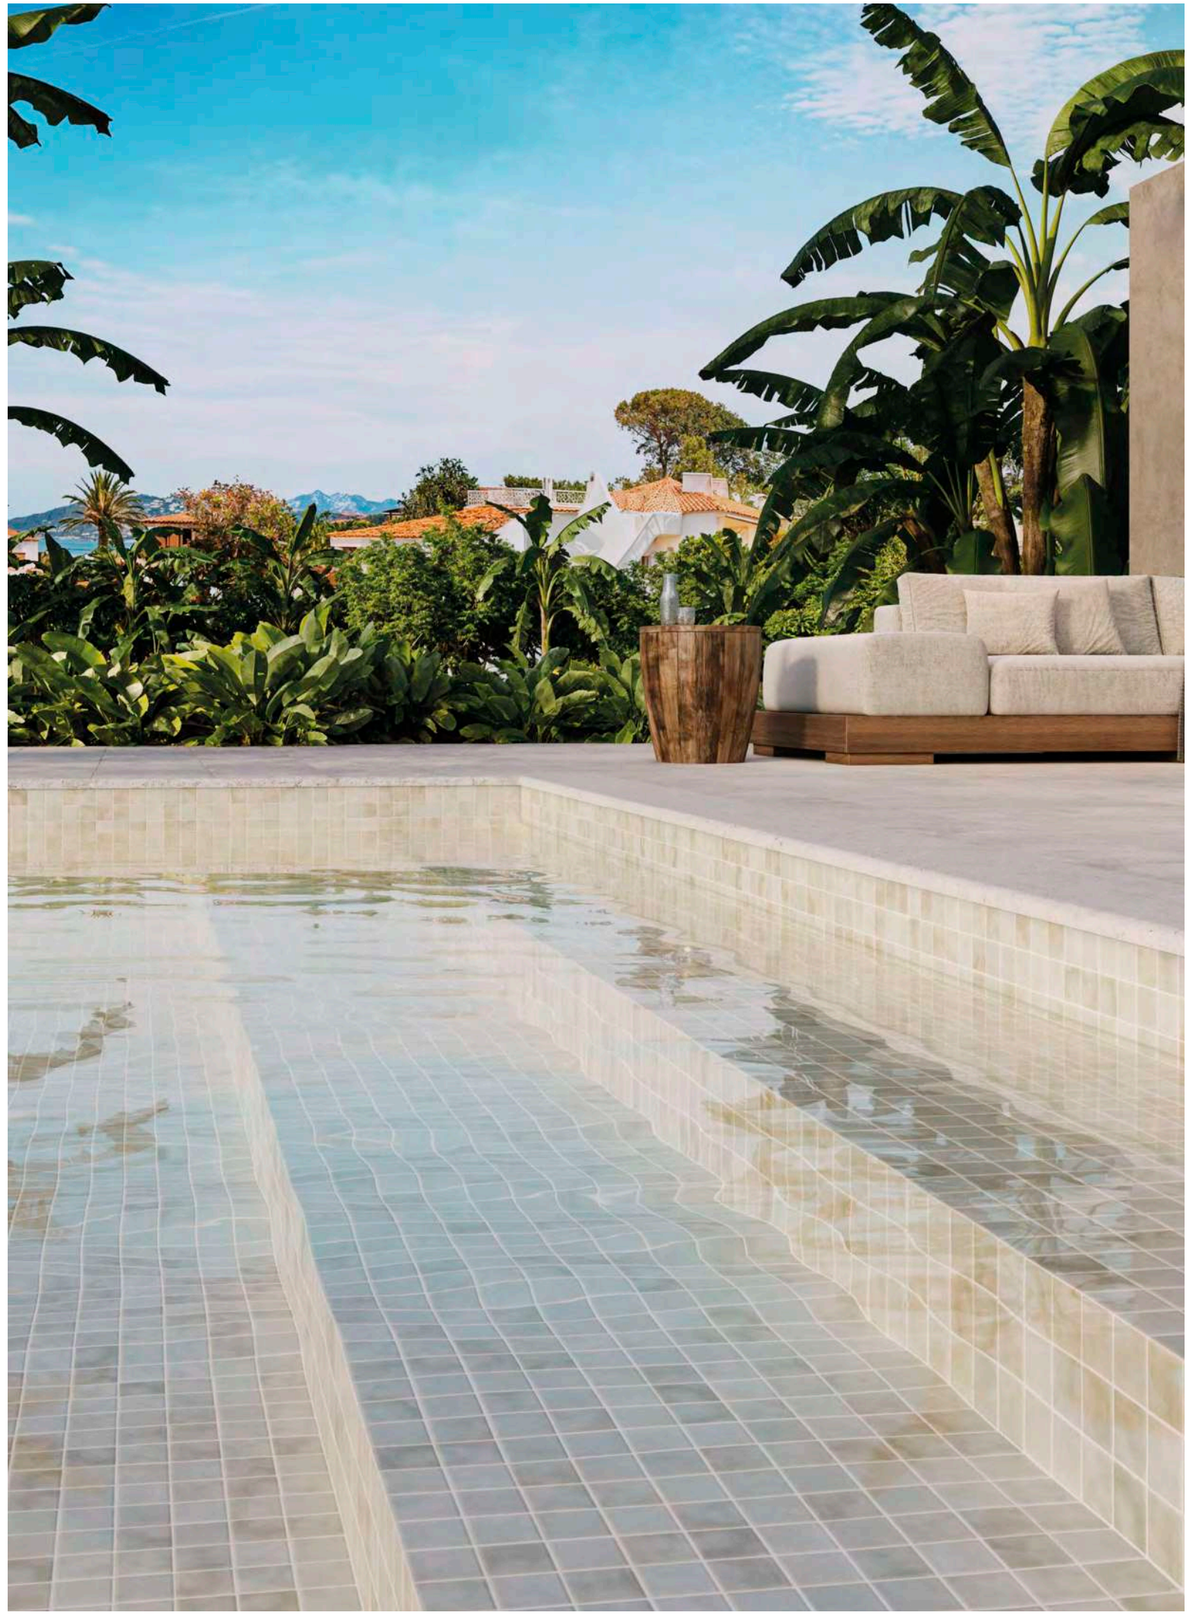

Featuring six designs in a single format, this collection is crafted to bring sophistication, intricate detail, and a distinctive identity to pools and water features.

Vanguard Stone

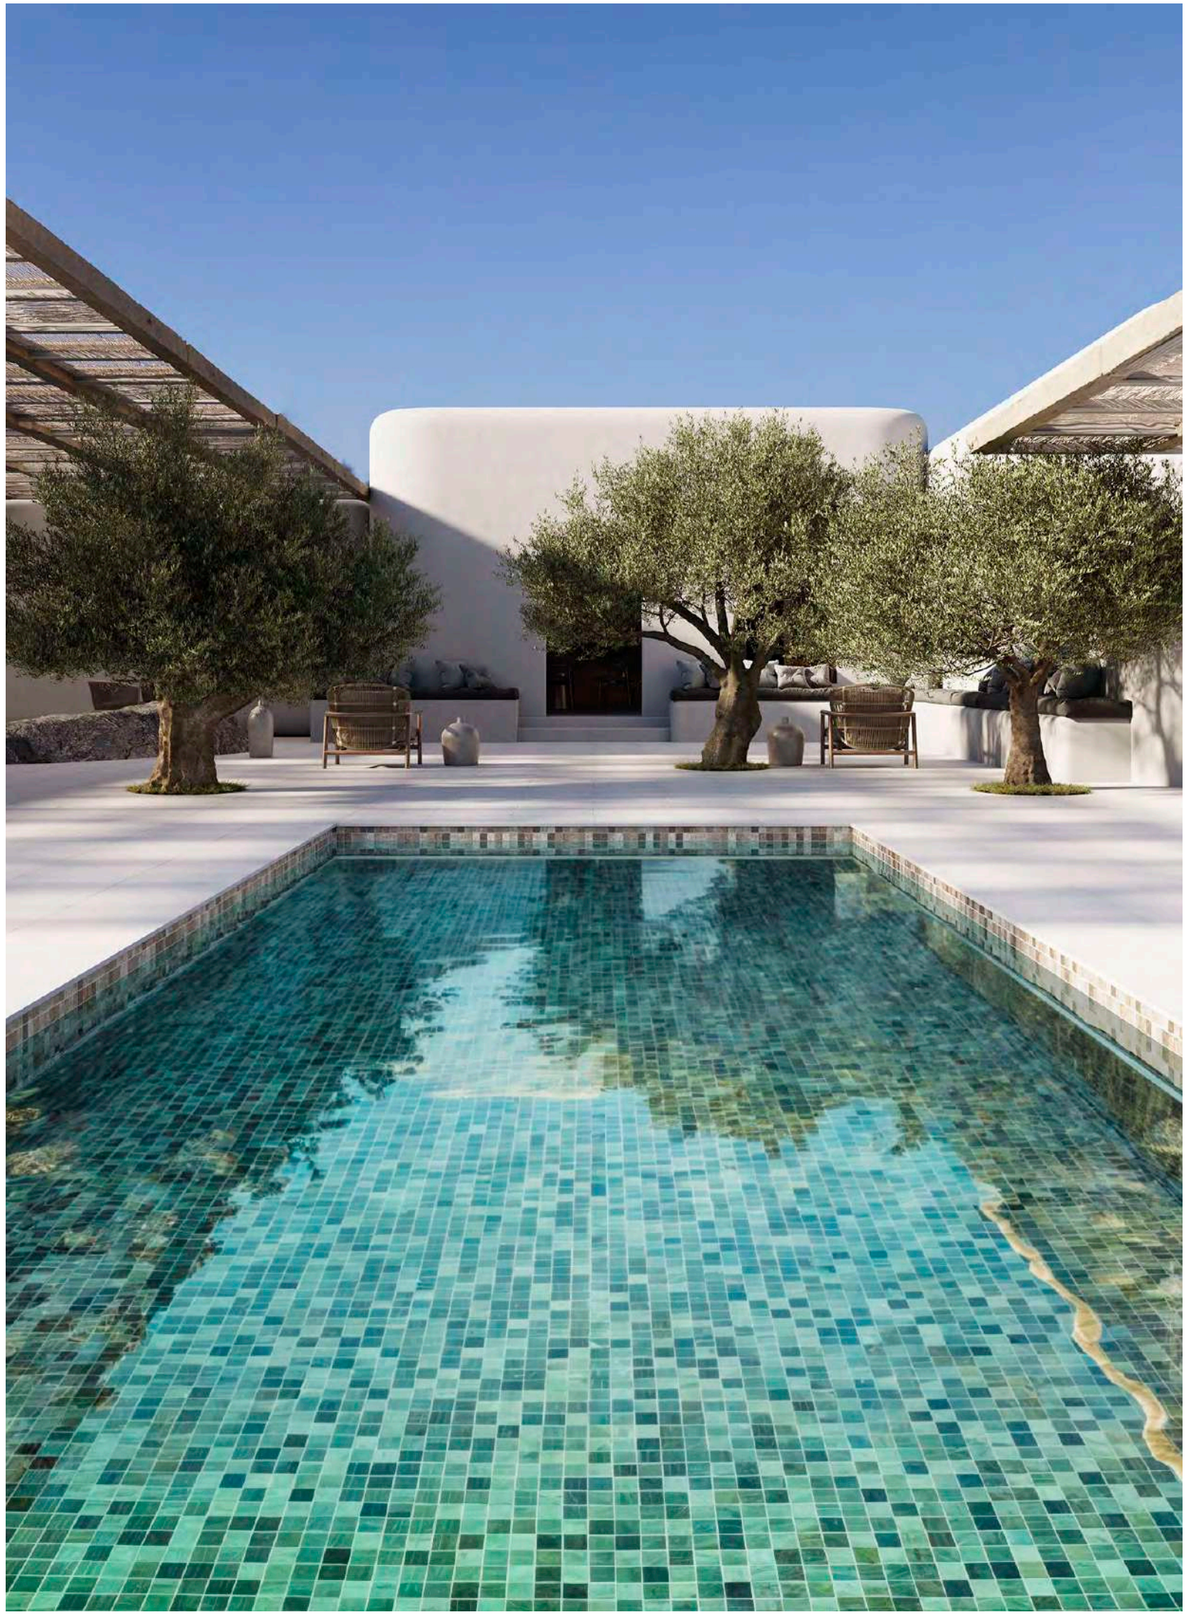

Step into the forefront of contemporary design with the **VANGUARD STONES** collection, where the timeless elegance of stone meets refined sophistication. Subtle textures and nuanced tones create immersive surfaces that evoke depth, visual rhythm, and quiet luminosity. More than mere decoration, the mosaics transform interiors into captivating environments, blending artistry with understated luxury. Light and shadow interplay across the surfaces, enhancing character and atmosphere while celebrating the harmony of material and design. **VANGUARD STONES** elevates spaces with serene beauty, refined elegance, and a distinctive architectural presence, offering a timeless expression of style, craftsmanship, and immersive visual experience.

Vanguard

VANGUARD redefines the aesthetics of aquatic environments with vibrant mosaics that celebrate color, texture, and light. Subtle variations evoke marbles, corals, and lava, while harmonious tones of blues, turquoises, greens, beiges, and warm shades create captivating visual compositions. Surfaces interact gracefully with illumination, producing gentle reflections, depth, and dynamic movement that transform interiors into immersive experiences. The collection balances innovation with timeless elegance, where light and color converge to craft serene, luminous atmospheres. Each installation becomes a celebration of artistry and sophistication, elevating spaces with refined character, immersive beauty, and enduring architectural distinction.

The art of glass mosaic with details in gold is a unique expression that combines the delicacy of glass with the opulence of precious metal. This creative process merges meticulous craftsmanship with sublime elegance.

ONIX offers you the opportunity to create custom combinations by including 24K Gold tesserae into any Square or Penta format mosaic. The glow of gold adds a dimension of wealth and exclusivity to the mosaic, elevating it to an unparalleled level of luxury and sophistication, creating luminous glimmers and contrasts that bring the composition to life.

El arte del mosaico de vidrio con detalles en oro es una expresión única que combina la delicadeza del vidrio con la opulencia del metal precioso. Este proceso creativo fusiona la artesanía meticulosa con la elegancia sublime.

ONIX te ofrece la posibilidad de crear combinaciones personalizadas incluyendo teselas de Oro 24K en cualquier mosaico de formato Square o Penta. El resplandor del oro añade una dimensión de riqueza y exclusividad al mosaico elevándolo a un nivel de lujo y sofisticación incomparables, creando destellos luminosos y contrastes que dan vida a la composición.

L'art de la mosaïque en verre avec des détails en or est une expression unique qui marie la délicatesse du verre à l'opulence du métal précieux. Ce processus créatif fusionne un savoir-faire méticuleux avec une élégance sublime.

ONIX vous offre la possibilité de créer des combinaisons personnalisées en incluant des tesselles d'or 24 carats dans n'importe quelle mosaïque au format Square ou Penta. L'éclat de l'or ajoute une dimension de riche-sse et d'exclusivité à la mosaïque, la hissant à un niveau de luxe et de sophistication inégalé, créant des lueurs lumineuses et des contrastes qui donnent vie à la composition.

Surfaces that glow in the dark

058 Luminiscent Blends
062 Luminiscent

56–57

AQUA LUMINISCENT transforms water areas with mosaics that absorb light during the day and release it in the dark. The result is a subtle, enveloping glow that adds atmosphere, safety, and a touch of magic. Designed for pools and spas, it offers an innovative and sensory aesthetic that blends functionality with an unforgettable visual experience.

AQUA LUMINISCENT transforma las zonas de agua con mosaicos que absorben la luz durante el día y la liberan en la oscuridad. El resultado: un resplandor sutil y envolvente que aporta atmósfera, seguridad y un toque de magia. Pensado para piscinas y spas, ofrece una estética innovadora y sensorial que combina funcionalidad con una experiencia visual inolvidable.

AQUA LUMINISCENT transforme les espaces aquatiques grâce à des mosaïques qui absorbent la lumière pendant la journée et la restituent dans l'obscurité. Le résultat : une lueur douce et enveloppante qui crée une atmosphère unique, renforce la sécurité et apporte une touche de magie. Conçue pour les piscines et les spas, cette solution offre une esthétique innovante et sensorielle alliant fonctionnalité et expérience visuelle inoubliable.

Luminiscent Blends

Mosaics that absorb daylight and release a soft glow in the dark. **LUMINISCENT BLENDS** combine Vanguard's design and finish with luminescent detail, transforming spaces with ethereal light and a striking visual effect that adds identity and atmosphere

Luminescent
ONIX's luminescent glass mosaic glows in the dark for hours after being charged with light, both natural or artificial (fluorescent, ultraviolet or halogen). This cycle may be repeated indefinitely.

The glow endurance depends on how long it has been exposed to light and also with the type of light it has been energized with. The luminescent will then gradually fade away after hours in the darkness.

This mosaic is weatherproof so it is suitable for any use: swimming pools, indoors & outdoors, walls, residential floors... It can be used as a plain color or mixed with the rest of ONIX.

Luminiscente
El mosaico vítreo luminiscente brilla en la oscuridad durante horas después de haber estado expuesto a la luz, tanto natural como artificial fluorescente, ultravioleta o halógena. Este proceso puede repetirse indefinidamente.

El tiempo de emisión dependerá del tipo de luz con el que se haya efectuado la carga, así como del tiempo que haya estado cargando el mosaico luminiscente. La intensidad de la emisión es gradual, disminuyendo poco a poco con el paso de las horas.

Este mosaico es resistente a condiciones meteorológicas y, por tanto, apto para cualquier uso: piscinas, interiores y exteriores, paredes, suelos residenciales... Se puede utilizar como base o se puede mezclar con otro producto de ONIX

Luminiscense
La mosaïque de verre phosphorescente brille dans l'obscurité pendant des heures après avoir été explosée à la lumière tant naturelle qu'artificielle (fluorescents, ultraviolets, halogènes). Cette opération peut être répétée de manière indéfinie.

Le temps d'émission dépendra du type de lumière utilisée mais aussi du temps durant lequel la mosaïque phosphorescente aura été explosée.Le temps d'émission est gradué et diminuera peu à peu au fil des heures.

Cette mosaïque est résistante aux conditions météorologiques. Elle peut donc être utilisée dans n'importe quelle application: piscines, intérieurs et extérieurs, murs, sols résidentiels... Elle peut être posée seule ou en mélange avec d'autres références d'ONIX.

Une proposition destinée aux projets recherchant singularité et esthétique architecturale affirmée, où la modularité devient un outil créatif sans limites.

ICON Modular Limitless

ICON LIMITLESS redefines modular mosaic as an open design system, conceived to expand creative possibilities in pools and distinctive architectural spaces. Its structure enables multiple compositions from a reduced number of sheets, allowing unique configurations adapted to each project.
The collection also allows color customization within the ONIX range, integrating seamlessly with the aesthetic language of its surroundings. A solution designed for projects where design seeks to stand out with a strong identity.

05
Terracotta

Mosaics evoking warmth, organic character and craftsmanship

114 Cottiva
124 Terra

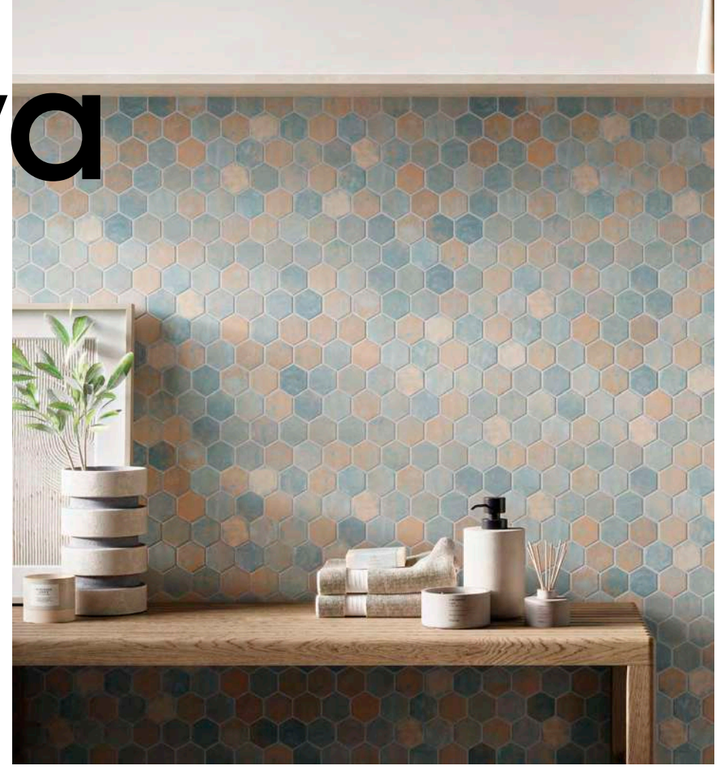

112 — 113

TERRACOTTA collections capture the natural essence of clay and ceramic tradition. Earthy tones, matte finishes and subtle textures create enveloping, authentic and balanced surfaces. A proposal that connects with craftsmanship and brings warmth to residential interiors and exteriors or projects seeking a natural, timeless aesthetic.

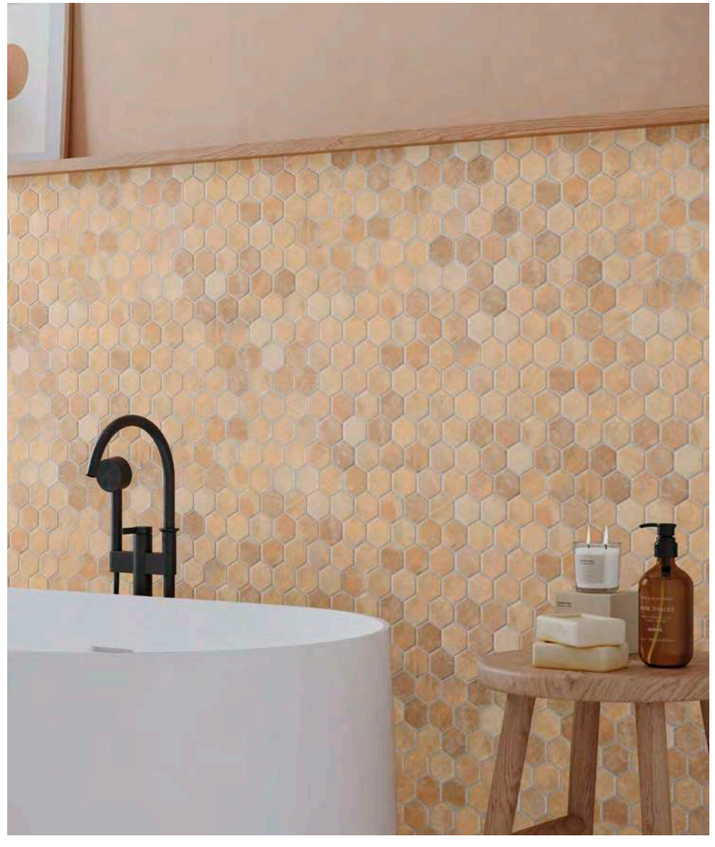

Las colecciones TERRACOTTA capturan la esencia natural de la arcilla y la tradición cerámica. Tonos tierra, acabados mate y texturas sutiles dan lugar a superficies envolventes, auténticas y equilibradas. Una propuesta que conecta con lo artesanal y aporta calidez a interiores y exteriores residenciales o proyectos que buscan una estética natural y atemporal.

Les collections TERRACOTTA capturent l'essence naturelle de l'argile et de la tradition céramique. Des tons terre, des finitions mates et des textures subtiles donnent naissance à des surfaces enveloppantes, authentiques et équilibrées. Une proposition qui se connecte à l'artisanat et apporte de la chaleur aux intérieurs et extérieurs résidentiels, ainsi qu'aux projets recherchant une esthétique naturelle et intemporelle.

Cottiva

COTTIVA reinterprets traditional ceramics through a contemporary lens. Its palette combines earthy tones with soft pastels, adding warmth, texture and a natural character. A collection that bridges craftsmanship and modernity, designed for balanced and authentic projects.

06 Marbles, Stones & Concretes

Stone, marble and cement reinterpreted in glass mosaic

138 Onyxa
146 Ecostones
160 Upscale Marbles
166 Normatech

136—137

This category captures the natural elegance of mineral materials, from the sophistication of marble to the sobriety of cement. MARBLES, STONES & CONCRETES collections range from subtle textures and neutral or earthy tones to expressive marbles with strong identity, adding depth, serenity and character. A timeless proposal for refined interiors, contract projects or residential spaces with an architectural focus.

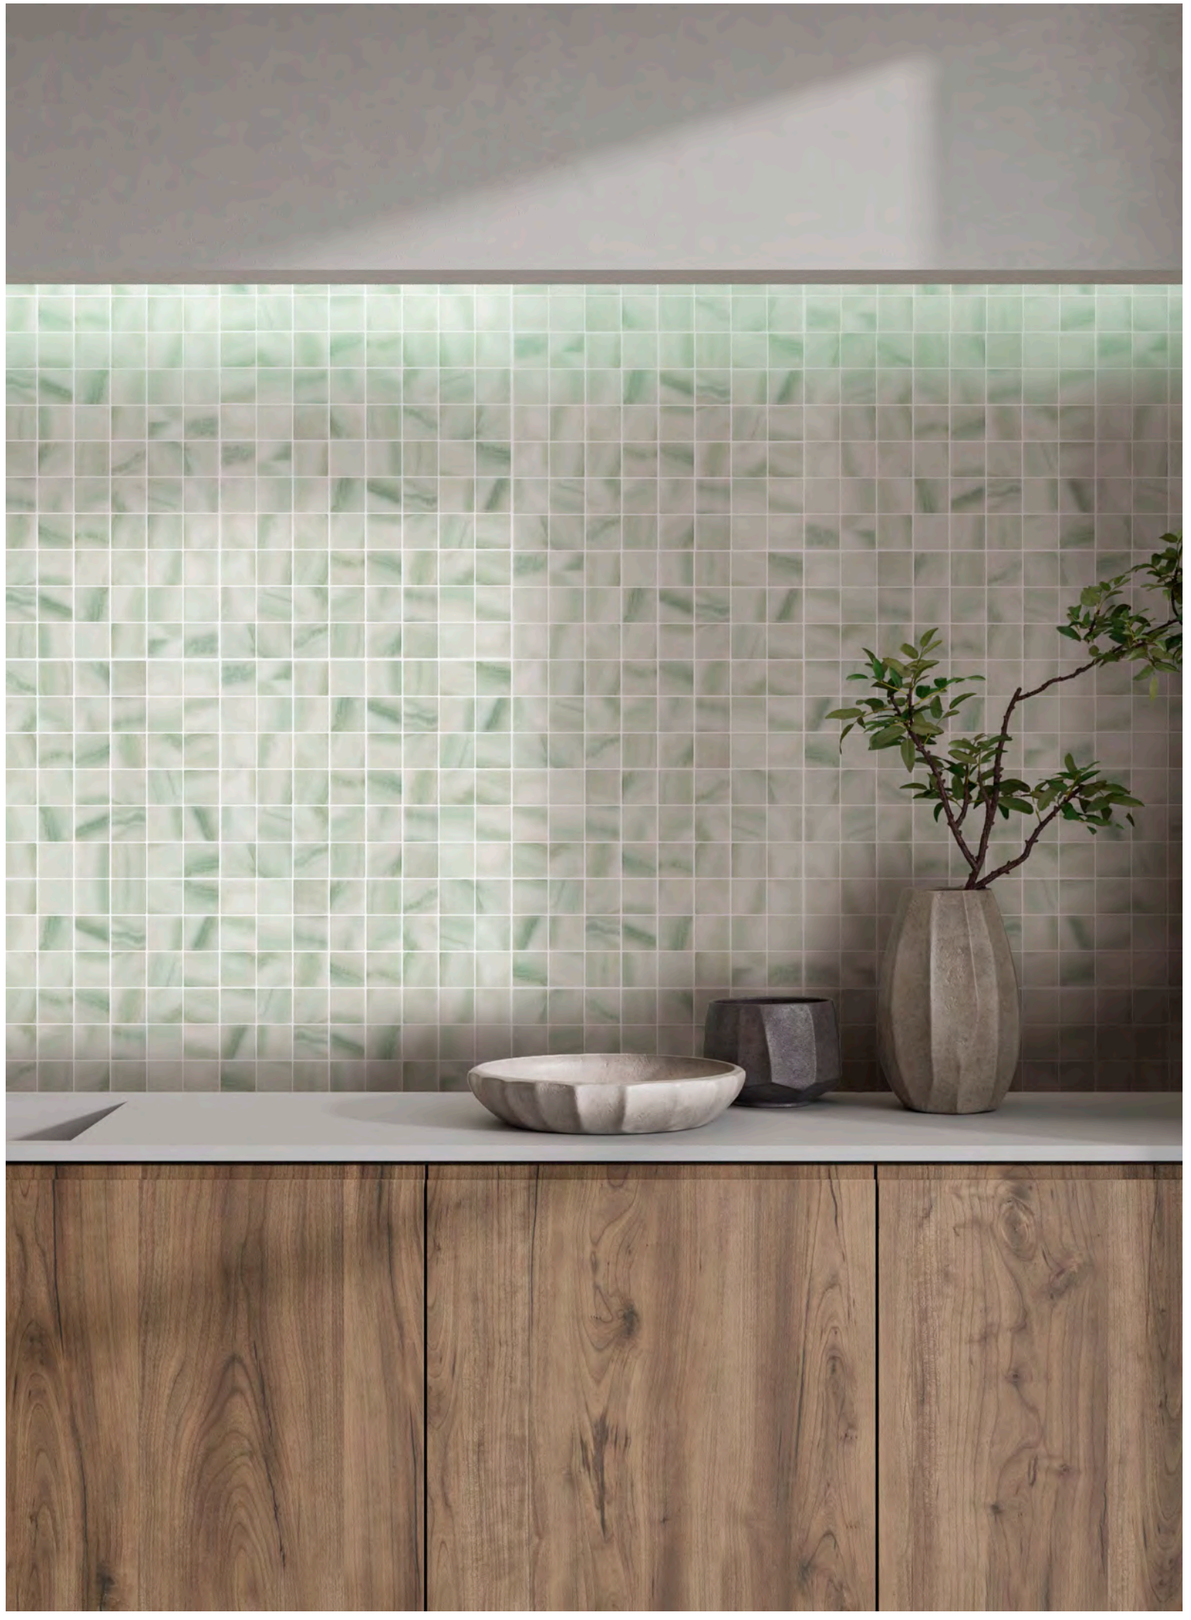

Esta categoría captura la elegancia natural de los materiales minerales, desde la sofisticación del mármol hasta la sobriedad del cemento. Las colecciones de MARBLES, STONES & CONCRETES ofrecen desde texturas sutiles y tonos neutros o terrosos hasta mármoles con personalidad propia que aportan profundidad, serenidad y personalidad. Una propuesta atemporal para interiores refinados, proyectos contract o residenciales con un enfoque arquitectónico.

Cette catégorie capture l'élégance naturelle des matériaux minéraux, de la sophistication du marbre à la sobriété du ciment. Les collections MARBLES, STONES & CONCRETES vont de textures subtiles et tons neutres ou terreux à des marbres expressifs, apportant profondeur, sérénité et caractère. Une proposition intemporelle pour des intérieurs raffinés, des projets contract ou résidentiels avec une approche architecturale.

Onyxa

ONYXA recreates the visual richness of onyx in glass mosaic. Translucent veining and soft gradients generate depth and dynamism, adding serene and sophisticated luxury to any space.

07 Gold

Subtle luxury with gold details

GOLD collections elevate glass mosaic through the incorporation of 24k gold tesserae. Designs that combine controlled brilliance, sophistication and a refined aesthetic, conceived for exclusive spaces. A contemporary luxury proposal for residential or commercial projects that value detail, quality and distinction.

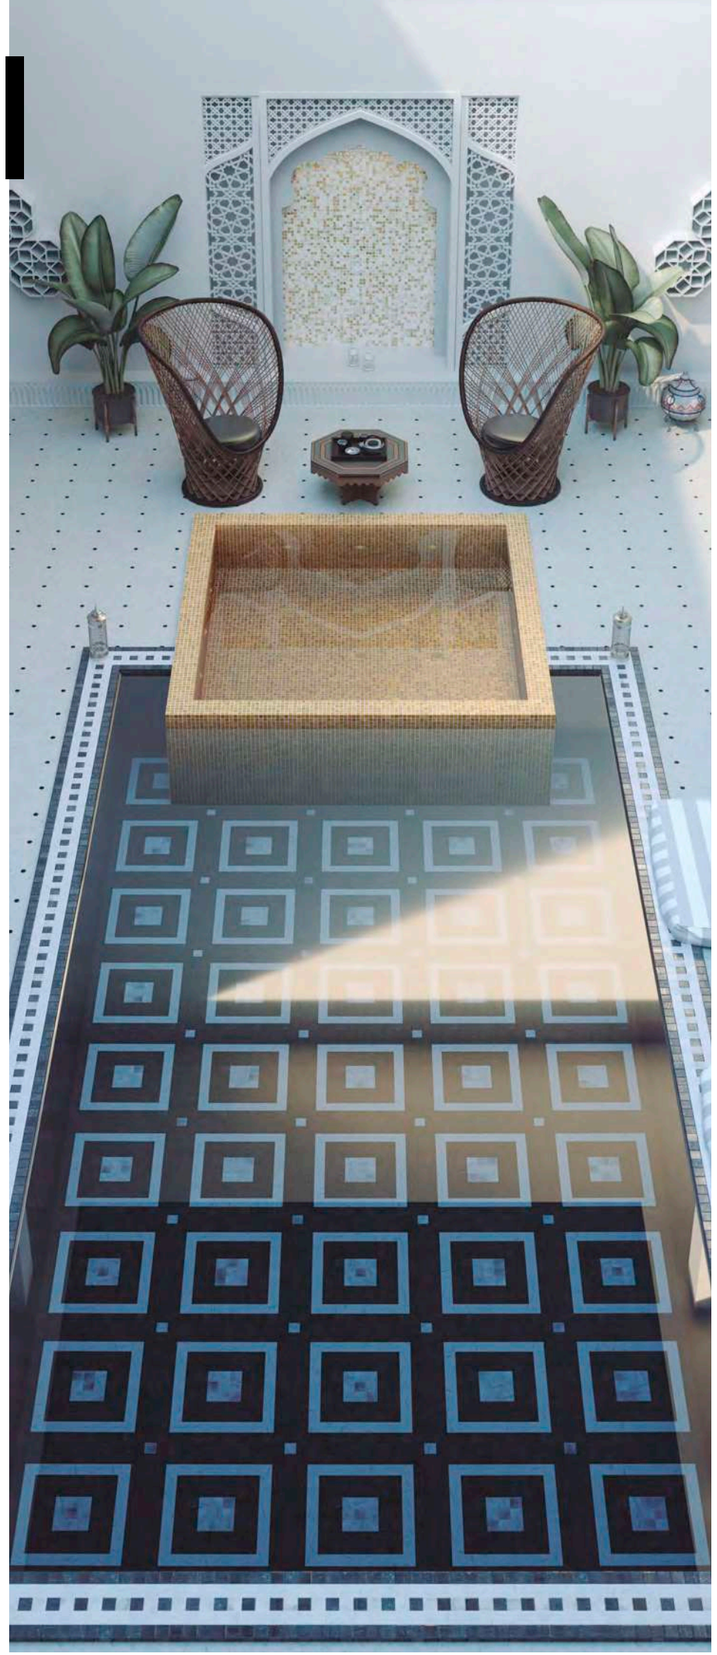

Las colecciones GOLD elevan el mosaico vítreo mediante la incorporación de teselas en oro de 24k. Diseños que combinan brillo controlado, sofisticación y una estética refinada, pensados para espacios exclusivos. Una propuesta de lujo contemporáneo para proyectos residenciales o comerciales que valoran el detalle, la calidad y la distinción.

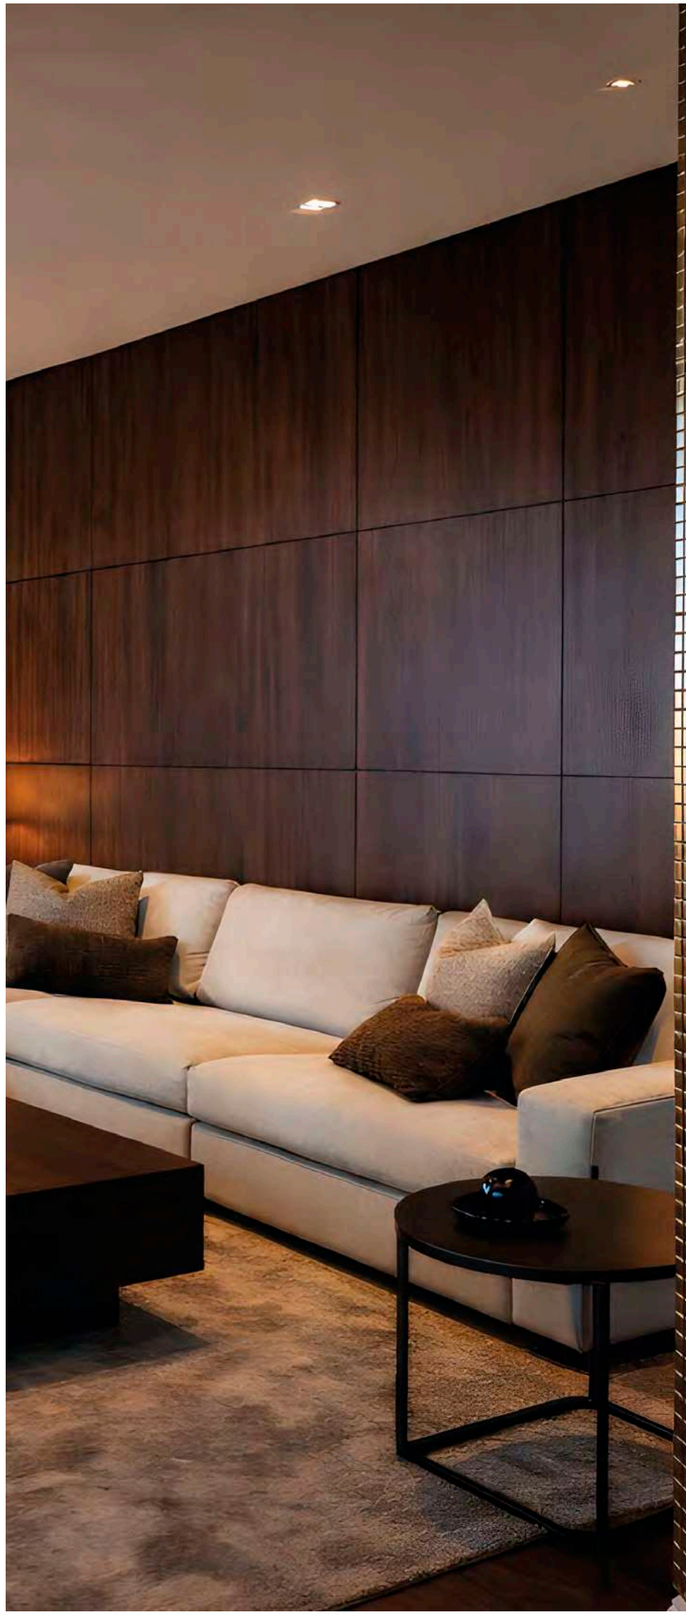

Les collections GOLD valorisent la mosaïque de verre grâce à l'intégration de tesselles en or 24 carats. Des designs qui associent brillance maîtrisée, sophistication et esthétique raffinée, conçus pour des espaces exclusifs. Une proposition de luxe contemporain pour des projets résidentiels ou commerciaux sensibles au détail, à la qualité et à la distinction.

174–175

Boreal

Our most exclusive collection. **BOREAL** features 24k gold tesserae that add subtle, sophisticated brilliance. Its refined aesthetic enhances spaces through light, contrast and high-impact design, created for projects seeking distinction, elegance and restrained luxury.

ART MOTIFS celebrates mosaic as an expressive surface and a design statement. This category includes pieces with strong visual identity, graphic patterns and decorative details that bring character and singularity. Designed to stand out, it is ideal for special applications or spaces where cladding becomes a narrative and central design element.

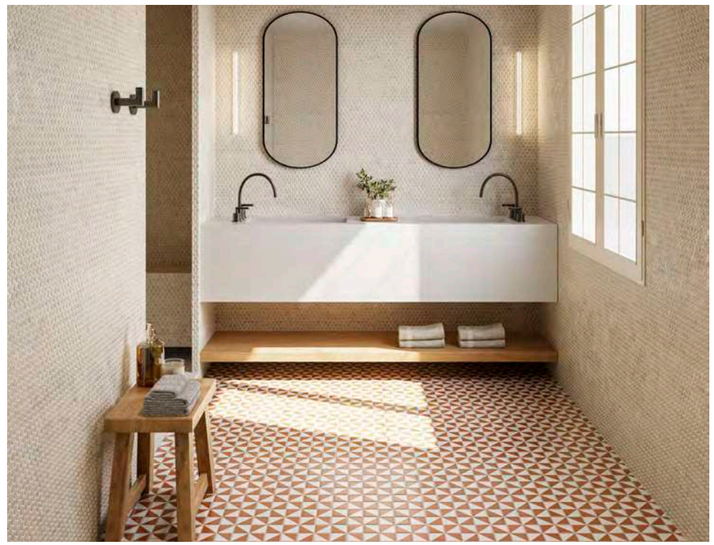

ART MOTIFS celebra el mosaico como superficie expresiva y elemento de autor. Esta categoría incluye piezas con fuerte identidad visual, patrones gráficos y detalles decorativos que aportan carácter y singularidad. Diseñada para destacar, es ideal para aplicaciones especiales o espacios donde el revestimiento se convierte en un recurso narrativo y protagonista del diseño.

ART MOTIFS célèbre la mosaïque comme surface expressive et élément d'auteur. Cette catégorie comprend des pièces à forte identité visuelle, des motifs graphiques et des détails décoratifs apportant caractère et singularité. Conçue pour se distinguer, elle est idéale pour des applications spéciales ou des espaces où le revêtement devient un élément narratif et central du design.

ICON Deco

ICON DECO transforms glass mosaic into a decorative surface with strong visual character. Its geometric patterns, inspired by vintage aesthetics and reinterpreted in a soft color palette, create spaces with personality, rhythm and timeless elegance. A versatile collection conceived for residential, hospitality and contract projects, expanding its creative possibilities through combination with the ONIX Color Palette.

ICON Mirage

ICON MIRAGE develops geometric compositions that generate visual effects of depth and movement. Its combination of structured patterns and a vibrant color palette creates dynamic surfaces that evolve with light and viewpoint. A contemporary collection conceived for projects seeking visual impact and a distinctive architectural aesthetic.

09 Mono-chrome

Timeless elegance in single-tone surfaces

196 Natureglass
208 Opalo
214 Stoneglass
224 Stoneglass Blends

194—195

The beauty of a single color takes center stage in this selection of collections celebrating chromatic purity. MONOCHROME proposes a refined palette of neutral and deep tones, with glossy or matte finishes capable of creating serene, balanced and sophisticated environments. An ideal choice for projects that value sobriety, visual coherence and understated elegance.

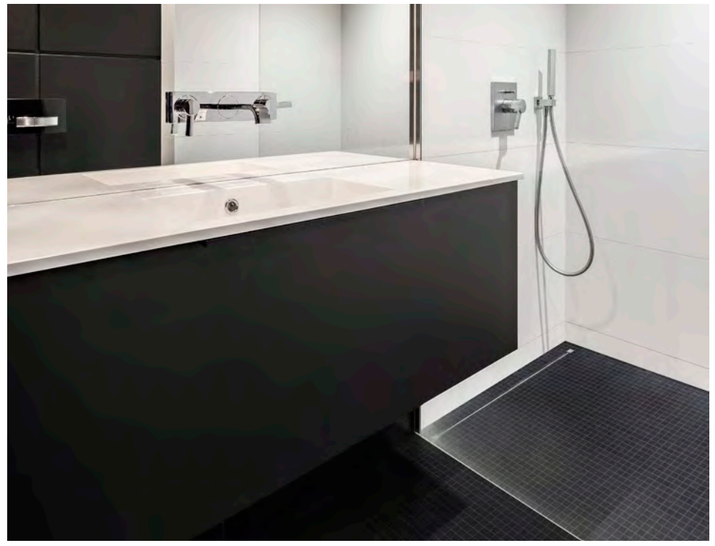

La belleza del color único cobra protagonismo en esta selección de colecciones que celebran la pureza cromática. MONOCHROME propone una paleta cuidada de tonos neutros y profundos, con acabados luminosos o mate, capaces de generar ambientes serenos, equilibrados y sofisticados. Una elección ideal para proyectos que apuestan por la sobriedad, la coherencia visual y una elegancia sin artificios.

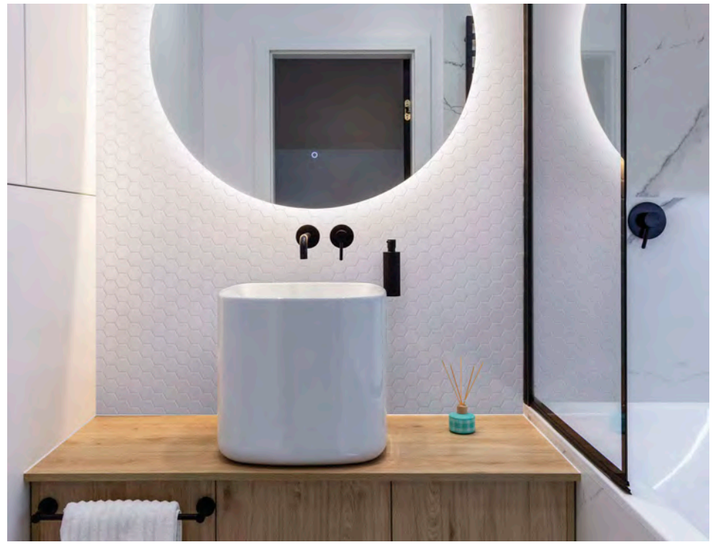

La beauté d'une couleur unique est au premier plan dans cette sélection de collections célébrant la pureté chromatique. MONOCHROME propose une palette soignée de tons neutres et profonds, en finitions mates ou brillantes, créant des ambiances sereines, équilibrées et sophistiquées. Un choix idéal pour des projets misant sur la sobriété, la cohérence visuelle et une élégance sans artifice.

Natureglass

NATUREGLASS is a collection with a wide chromatic range and a matte finish that allows the creation of sober, elegant surfaces, making it an ideal option for projects seeking simplicity, visual coherence and a timeless aesthetic.

Opalo

OPALO is a collection where neutral tones are enriched by a finish that integrates silver and gold reflections, adding brightness and visual depth. The result is elegant surfaces in which luminosity acquires a refined and timeless presence. A proposal conceived for projects seeking distinction through delicate nuances.

Stoneglass Blends

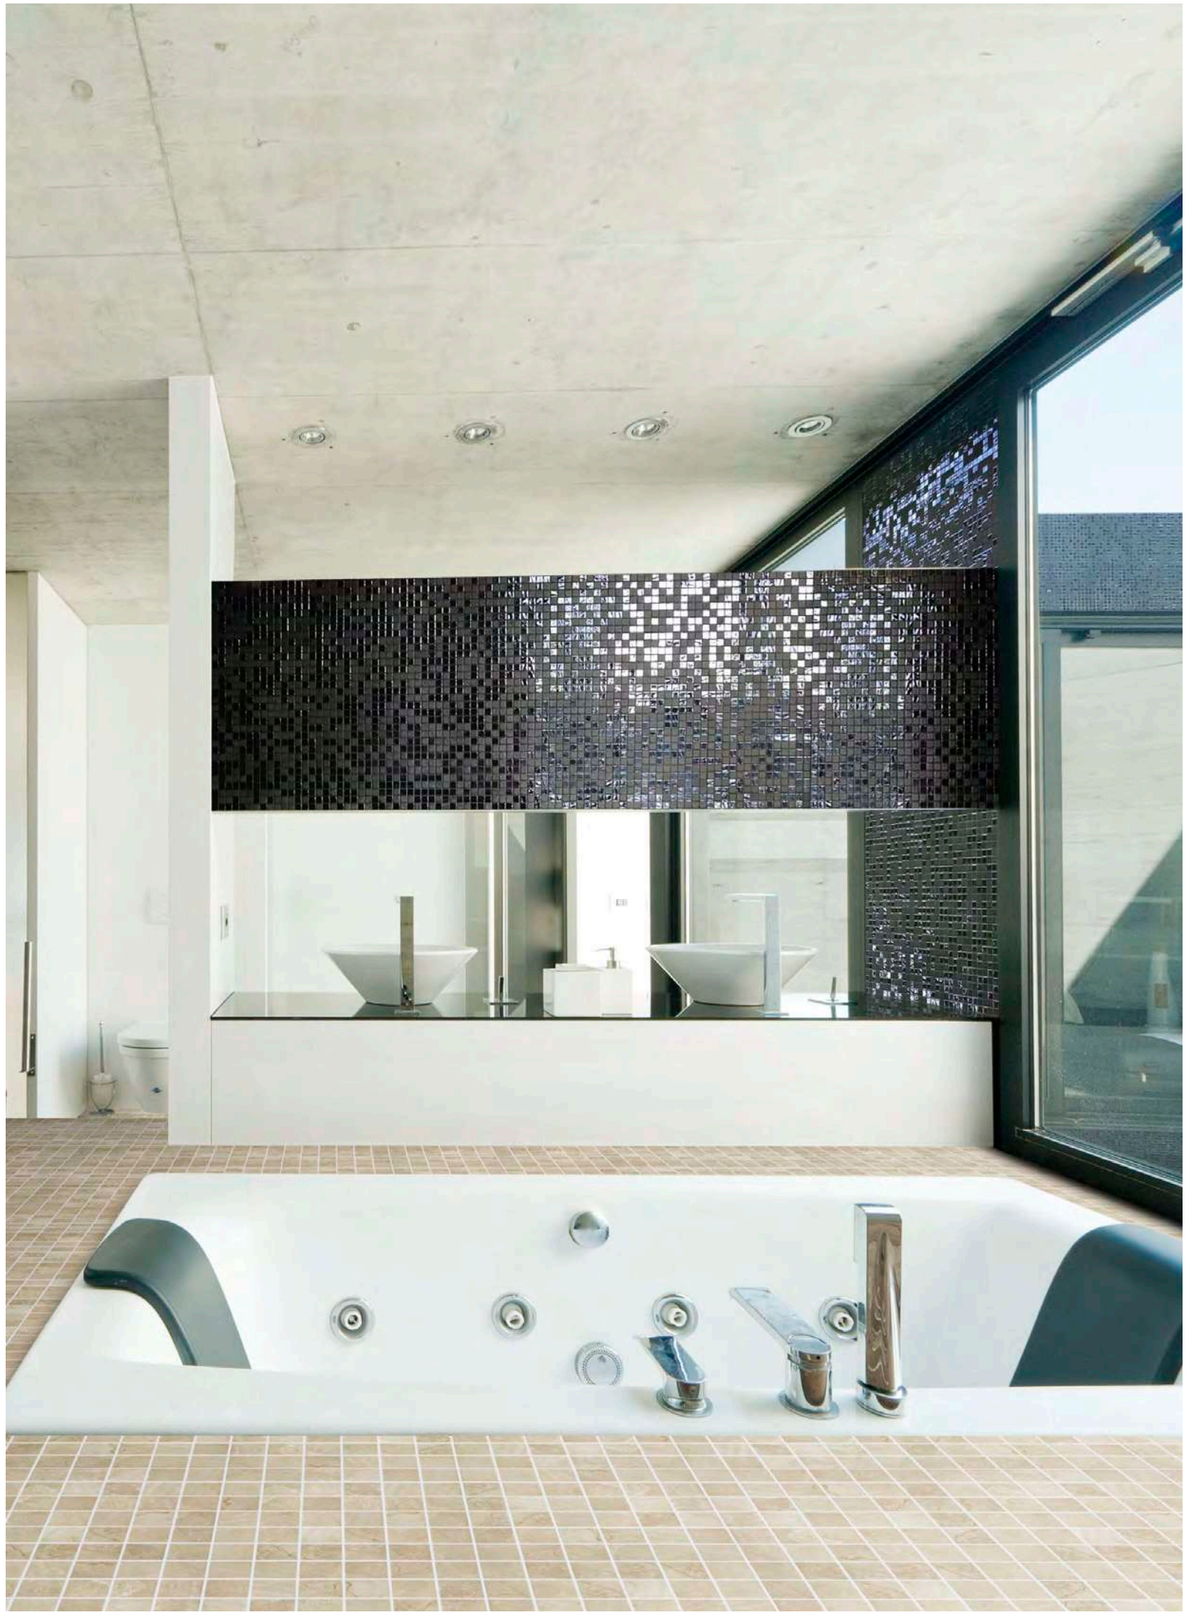

Rich in texture, this glass mosaic series stands out for the elegance of its solid black, white, and grey tones. Subtle interplay between soft matte surfaces and opalescent brilliance imbues interiors with depth, gentle luminosity, and a sense of serene sophistication. Light interacts gracefully across the mosaics, creating quiet reflections and visual movement that elevate every environment. The collection transforms spaces into immersive, harmonious settings where elegance, refinement, and timeless beauty converge. Each installation celebrates the delicate balance of color, texture, and luminosity, offering a distinctive architectural presence and an enduring sense of atmospheric charm throughout every interior it adorns.

10 Pattern Collection

The art of detail in geometric patterns

PATTERN COLLECTION explores mosaic as a graphic and decorative resource, where geometric repetition becomes a design language. This line brings together collections based on modular forms such as hexagons or squares. Conceived for surfaces with strong visual identity, PATTERN COLLECTION adds dynamism and character to both interior and exterior spaces, turning mosaic into a central element of the architectural project.

MOSAIC CREATOR Pattern designs are developed from a carefully curated chromatic selection of formats and finishes designed to work in harmony. These combinations establish the aesthetic foundation of each pattern while ensuring visual coherence.

Within this system, designs can be customized in color and finish using the ONIX range, allowing each composition to be adapted without losing stylistic balance. The color palette, presented visually, acts as the starting point for reinterpreting patterns and generating surfaces with varying intensities and visual readings.

To anticipate the final result, Mosaic Creator, ONIX's digital tool, allows selected compositions to be visualized on a digital canvas, facilitating design validation before application in the project.

PATTERN COLLECTION explora el mosaico como recurso gráfico y decorativo, donde la repetición geométrica se convierte en lenguaje de diseño. Esta línea reúne colecciones basadas en formas modulares con hexágonos o cuadrados pensada para superficies con identidad visual marcada, PATTERN COLLECTION aporta dinamismo y carácter tanto en espacios interiores como exteriores, convirtiendo el mosaico en un elemento protagonista dentro del proyecto arquitectónico.

MOSAIC CREATOR Pattern Design System, Los diseños Pattern se desarrollan a partir de una selección cromática, de formatos y acabados concebidos para trabajar en armonía. Estas combinaciones iniciales establecen la base estética de cada patrón y garantizan coherencia visual en el conjunto.

Dentro de este sistema, los diseños pueden personalizarse en color y acabado utilizando la gama ONIX, permitiendo adaptar cada composición sin perder el equilibrio del estilo. La paleta cromática, presentada de forma visual, actúa como punto de partida para reinterpretar los patrones y generar superficies con distintas intensidades y lecturas visuales.

Para anticipar el resultado final, Mosaic Creator, la herramienta digital de ONIX, permite visualizar las composiciones seleccionadas en un lienzo digital, facilitando la validación del diseño antes de su aplicación en el proyecto.

PATTERN COLLECTION explore la mosaïque comme ressource graphique et décorative, où la répétition géométrique devient un langage de design. Cette ligne regroupe des collections basées sur des formes modulaires telles que des hexagones ou des carrés. Conçue pour des surfaces à forte identité visuelle, PATTERN COLLECTION apporte dynamisme et caractère aux espaces intérieurs et extérieurs, faisant de la mosaïque un élément central du projet architectural.

MOSAIC CREATOR Pattern Design System- Les motifs Pattern se développent à partir d'une sélection chromatique ainsi que de formats et finitions conçus pour fonctionner en harmonie. Ces combinaisons initiales établissent la base esthétique de chaque motif et garantissent la cohérence visuelle de l'ensemble.

Dans ce système, les motifs peuvent être personnalisés en couleur et en finition au sein de la gamme ONIX, permettant d'adapter chaque composition sans perdre l'équilibre du style. La palette, présentée visuellement, sert de point de départ pour réinterpréter les motifs et créer des surfaces avec différentes intensités et lectures visuelles.

Pour anticiper le résultat final, Mosaic Creator, l'outil digital d'ONIX, permet de visualiser les compositions sélectionnées sur une toile numérique, facilitant la validation du design avant sa mise en œuvre dans le projet.

232 Hex Pattern
244 Square Pattern

Hex Pattern

HEX PATTERNS takes the hexagon as its graphic module, creating surfaces through geometric repetition. The collection is developed in Natureglass, Stoneglass and Ecostones finishes, within a wide and carefully curated color palette that enables balanced combinations rich in nuance.
Designs can be reinterpreted by adapting the available colors, allowing personalized compositions while preserving the aesthetic coherence of the pattern and reinforcing the visual identity of the space.

Step
It is the perfect piece for step edges and pool coronation stones that can sometimes be problematic. Its non-slip finish and varie-ty of colours complete a range that blends perfectly with all our products.

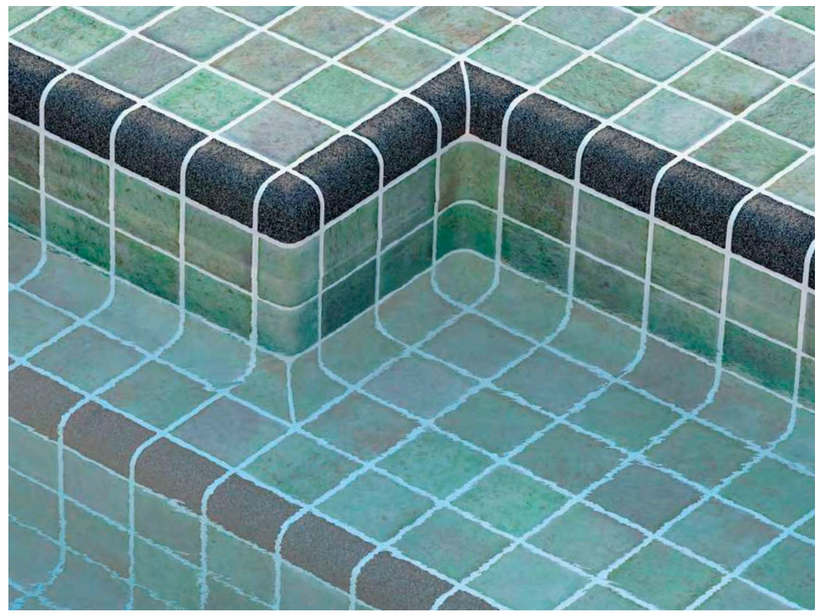

Cove
This novel piece considerably enhances the aesthetics of the pool with a much more elegant and careful finish for the transition area between floor and wall.

Step
La pieza perfecta para el canto de los escalones y coronaciones de piscina que en algunas ocasiones pueden resultar problemáticos. Sus distintos acabados y variedad de colores completan una gama que combina perfectamente con cualquie-ra de nuestros productos.

Cove
Esta novedosa pieza mejora la estética de la piscina ofreciendo un acabado mucho más elegante y cuidado en la transición entre suelo y pared.

Step
C'est la pièce idéale pour les marches d'escalier et le couronnement qui peuvent parfois être problématiques. Sa finition antidérapante et sa variété de couleurs complètent une gamme qui se marie parfaitement à tous nos produits.

Cove
Cette nouvelle pièce améliore l'esthétique de la piscine avec une finition beaucoup plus élégante et soignée pour la zone de transition entre le sol et le mur.

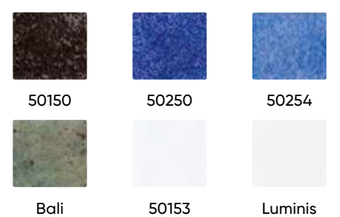

Special Pieces

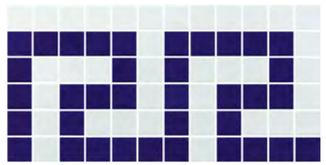

All pieces are available in the Step & Cove colour range. Finishing pieces can be produced in selected ONIX catalogue designs, depending on technical feasibility.

Todas las piezas estan disponibles en la gama de colores Step & Cove. Las piezas especiales de terminación pueden desarrollarse en una selección de diseños del catálogo ONIX, en función de la viabilidad técnica.

Toutes les pièces sont disponibles dans la gamme de couleurs Step & Cove. Les pièces de finition spéciales peuvent être réalisées dans certains modèles du catalogue ONIX, sous réserve de faisabilité technique.

The Happy pools decorations are supplied with a Nieve Azul Celeste 25251 background. If you would like a different background, this must be indicated when placing your order.

Los decorados de Happy pools se sirven con fondo Nieve Azul Celeste 25251, si se desea cambiarlo por uno distinto, es necesario indicarlo en el momento de realizar pedido.

Les décors de Happy pools sont servis sur fond Nieve Azul Celeste 25251. Si vous souhaitez le changer par un autre, vous devez l'indiquer au moment de réaliser la commande.

Custom Design Solutions

ONIX develops bespoke design solutions that expand the creative possibilities of glass mosaic. Through different techniques, color, image and pattern can be transformed into unique surfaces adapted to each project.

SHADING BLENDS creates continuous chromatic gradients that add depth and movement. Thanks to Mosaic Creator, ONIX's digital tool, custom gradients can be designed by selecting colors, textures and finishes from different collections, adapting each composition to the project's aesthetic needs.

ONIX desarrolla soluciones de diseño a medida que amplían las posibilidades creativas del mosaico vítreo. A través de distintas técnicas, es posible transformar color, imagen y patrón en superficies únicas adaptadas a cada proyecto.

SHADING BLENDS crea degradados cromáticos continuos que aportan profundidad y movimiento. Gracias a Mosaic Creator, la herramienta digital de ONIX, es posible diseñar degradados a medida seleccionando colores, texturas y acabados de distintas series, adaptando cada composición a las necesidades estéticas del proyecto.

ONIX développe des solutions de design sur mesure qui élargissent les possibilités créatives de la mosaïque de verre. Grâce à différentes techniques, couleur, image et motif peuvent être transformés en surfaces uniques, adaptées à chaque projet.

SHADING BLENDS crée des dégradés chromatiques continus apportant profondeur et mouvement. Grâce à Mosaic Creator, l'outil digital d'ONIX, il est possible de concevoir des dégradés sur mesure en sélectionnant couleurs, textures et finitions de différentes séries, en adaptant chaque composition aux besoins esthétiques du projet.

Shading Blends Application

Gradients provide a smooth transition between tones, from darker to lighter shades. They are supplied in modules of eight sheets or levels, ranging from level L1 to L8.

Each level is composed of a specific percentage of tesserae, ensuring a gradual and harmonious transition without visible breaks between sections.

Individual levels can be purchased separately to complement flooring, wall cladding, ceilings or other surfaces.

Los degradados proporcionan una suave transición entre tonalidades, desde la más oscura a la más clara. Se comercializan en módulos de ocho láminas o niveles, que van desde el nivel L1 al L8.

Cada nivel está formado por un porcentaje de teselas determinado, de forma que la transición entre los diferentes niveles se produce de manera gradual y armónica, sin apreciarse cortes entre las diferentes secciones.

Es posible adquirir niveles independientes para complementar el pavimento, revestimiento, techo u otra superficie.

Les dégradés offrent une transition douce entre les tons, du plus foncé au plus clair. Ils sont commercialisés en modules de huit plaques ou niveaux, du niveau L1 au L8.

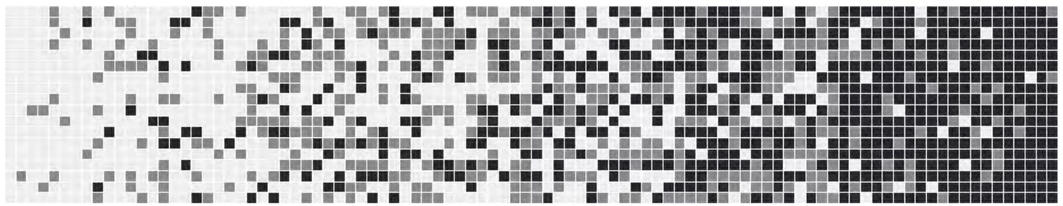

Chaque niveau est composé d'un pourcentage déterminé de tesselles, assurant une transition progressive et harmonieuse, sans rupture visible entre les sections.

Il est possible d'acquérir des niveaux indépendants afin de compléter un sol, un revêtement mural, un plafond ou toute autre surface.

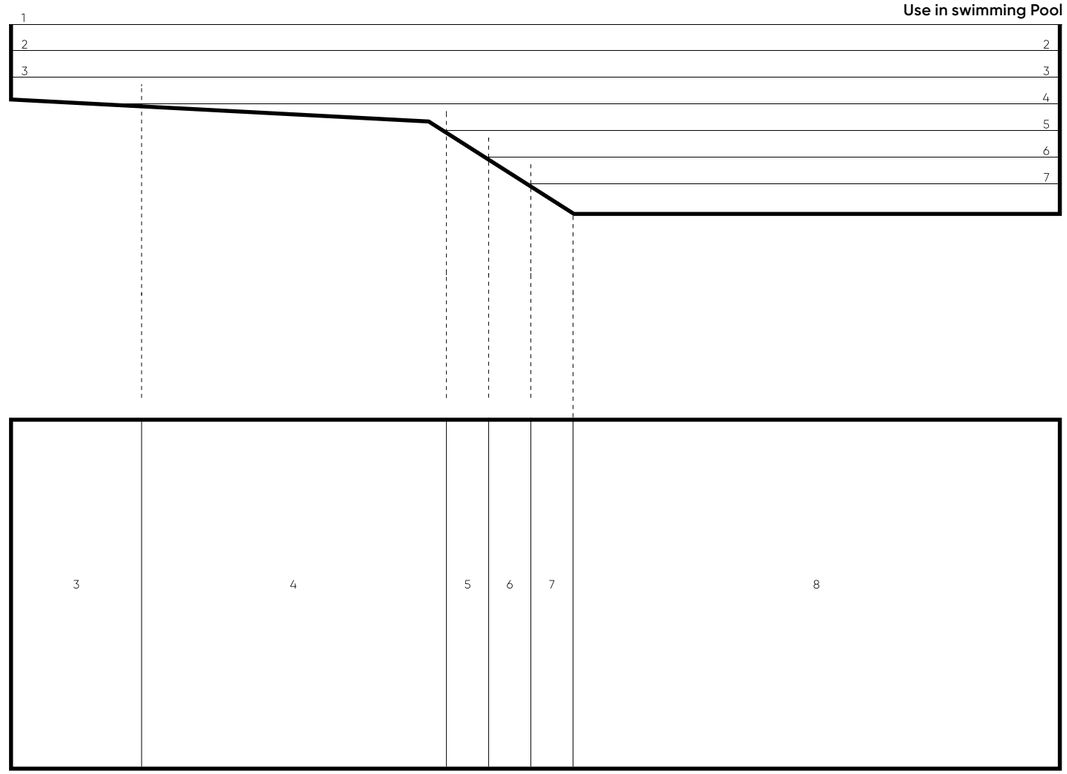

Dots

1 Module | 12X18.

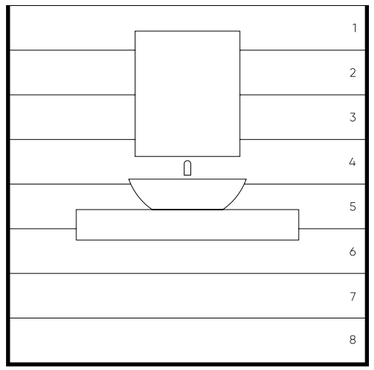

2488 x 467 mm | 1,16 m² - 12.5 sqft

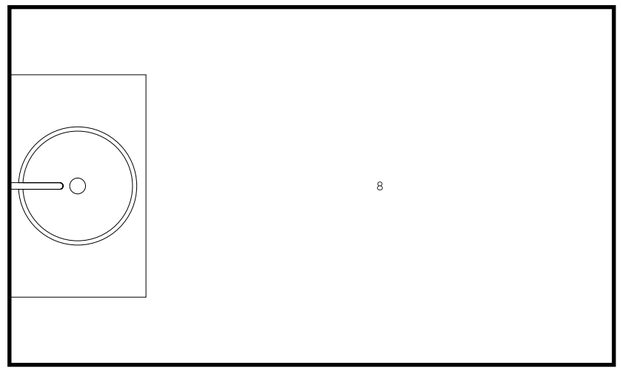

Use in swimming Pool

Use in interior

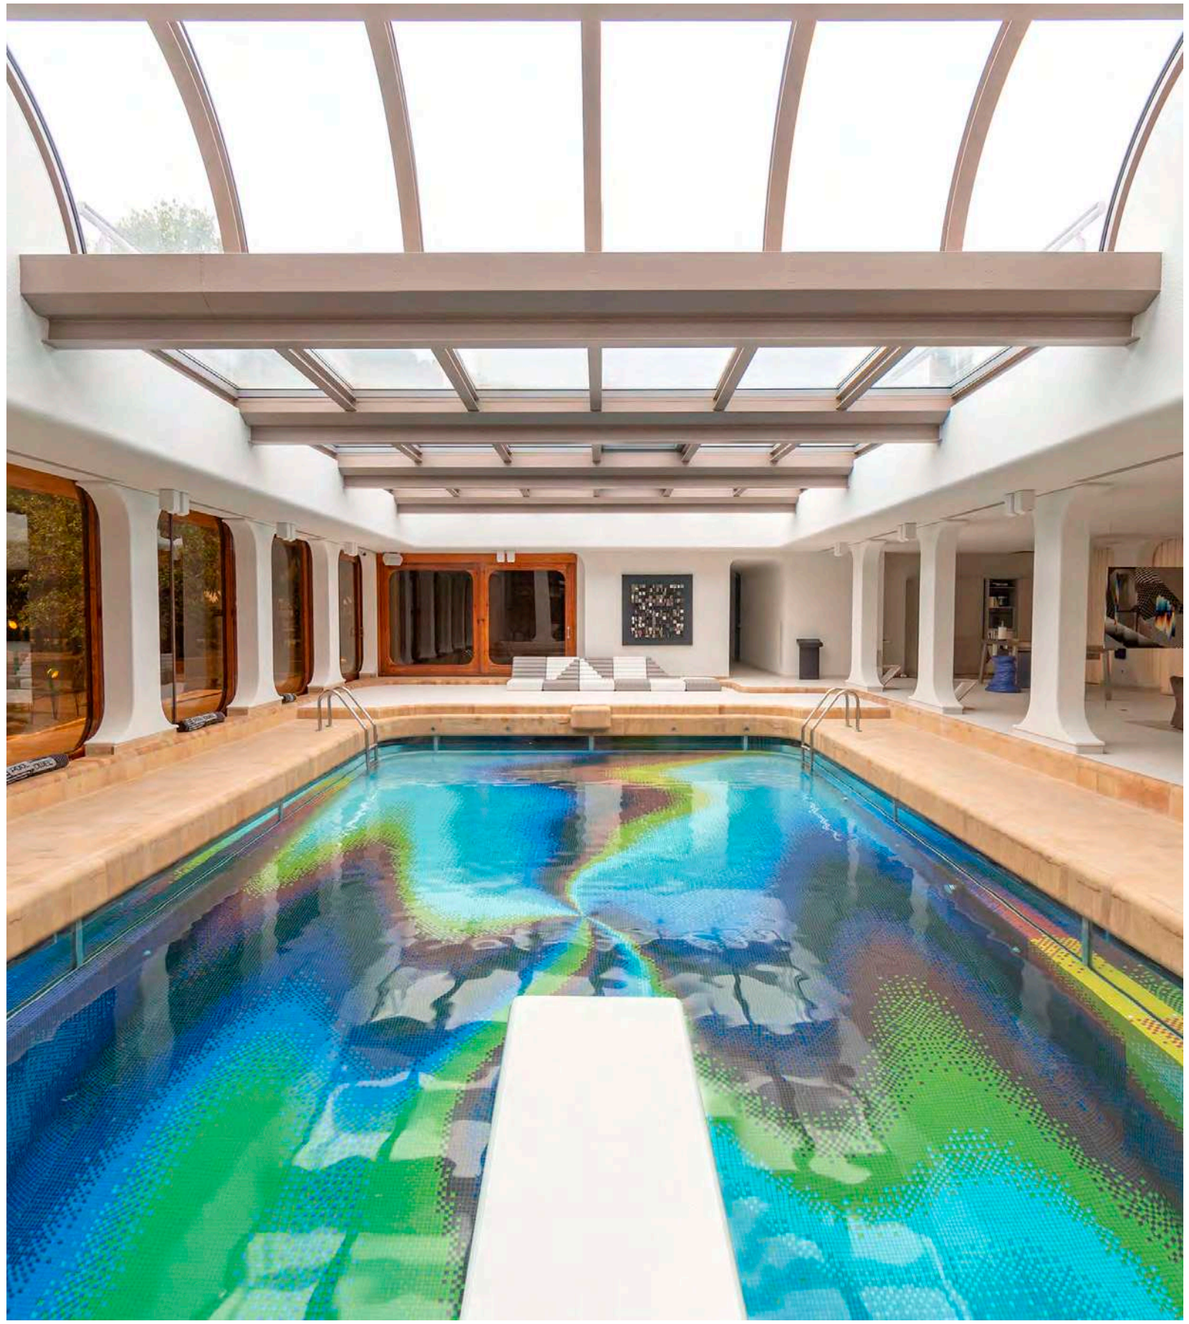

Pixel Art

PIXEL ART transfers images and designs onto glass mosaic, converting each pixel into a tessera. The result is highly customized compositions with strong visual impact, ideal for singular projects seeking graphic expression and character.

PIXEL ART traslada imágenes y diseños al mosaico vítreo, convirtiendo cada píxel en una tesela. El resultado son composiciones personalizadas de gran impacto visual, ideales para proyectos singulares que buscan expresión gráfica y carácter.

PIXEL ART transpose images et designs en mosaïque de verre, en transformant chaque pixel en tesselle. Le résultat : des compositions personnalisées à fort impact visuel, idéales pour des projets singuliers recherchant expression graphique et caractère.

Digital Print

DIGITAL PRINT enables the reproduction of images and vector files directly onto glass mosaic using high-resolution digital printing, offering a high level of detail and chromatic fidelity.

These solutions are supported by the ONIX design team and visualization tools that allow the final result to be anticipated.

DIGITAL PRINT permite reproducir imágenes y archivos vectoriales directamente sobre mosaico vítreo mediante impresión digital de alta resolución, ofreciendo un elevado nivel de detalle y fidelidad cromática.

Estas soluciones cuentan con el soporte del equipo de diseño ONIX y herramientas de visualización que permiten anticipar el resultado final.

DIGITAL PRINT permet de reproduire des images et fichiers vectoriels directement sur mosaïque de verre grâce à l'impression numérique haute résolution, offrant un niveau de détail élevé et une grande fidélité chromatique.

Ces solutions bénéficient du support de l'équipe design ONIX et d'outils de visualisation permettant d'anticiper le résultat final.

Product Technical Overview

Product Technical Overview

ONIX glass mosaic is manufactured using 100% recycled glass, a material that provides durability, chromatic stability and a distinctive aesthetic. Production process control ensures a consistent product designed for residential, commercial and aquatic projects.

The characteristics of recycled glass may result in slight variations in size, shape or finish, inherent to the material and contributing to its natural appearance once installed.

Formats

ONIX formats and finishes present characteristics derived from the manufacturing process and the nature of recycled glass, adding visual identity to the mosaic.

Larger formats such as PENTA, HEX XL or PENNY XL accentuate this artisanal character. Their slight geometric irregularities are part of the design and may influence grout appearance, reinforcing the natural look of the surface.

Finishes

Collections featuring 24k gold applications provide a refined aesthetic that requires appropriate selection of the application environment. Matte and anti-slip finishes combine functionality and design, and grout color should be considered as part of the final aesthetic result.

Descripción técnica del producto

El mosaico vítreo ONIX se fabrica con vidrio 100% reciclado, un material que aporta durabilidad, estabilidad cromática y una estética singular. El control del proceso productivo garantiza un producto consistente, pensado para proyectos residenciales, comerciales y acuáticos.

Las características del vidrio reciclado pueden generar ligeras variaciones de tamaño, forma o acabado, propias del material y que contribuyen a realzar su carácter natural una vez instalado.

Formatos

Los formatos y acabados ONIX presentan características derivadas del proceso de fabricación y de la naturaleza del vidrio reciclado, aportando identidad visual al mosaico.

Los grandes formatos como PENTA, HEX XL o PENNY XL acentúan este carácter artesanal. Sus ligeras irregularidades geométricas forman parte del diseño y pueden influir en la apariencia de la junta, reforzando el aspecto natural del conjunto.

Acabados

Las colecciones con aplicaciones en oro de 24k aportan una estética refinada que requiere una correcta selección del entorno de uso. Los acabados mate y antideslizantes combinan funcionalidad y diseño, siendo recomendable considerar el color de la junta como parte del resultado estético final.

Présentation technique du produit

La mosaïque de verre ONIX est fabriquée à partir de verre 100 % recyclé, un matériau offrant durabilité, stabilité chromatique et esthétique singulière. Le contrôle du processus de production garantit un produit constant, conçu pour des projets résidentiels, commerciaux et aquatiques.

Les caractéristiques du verre recyclé peuvent entraîner de légères variations de taille, de forme ou de finition, inhérentes au matériau et contribuant à renforcer son aspect naturel une fois posé.

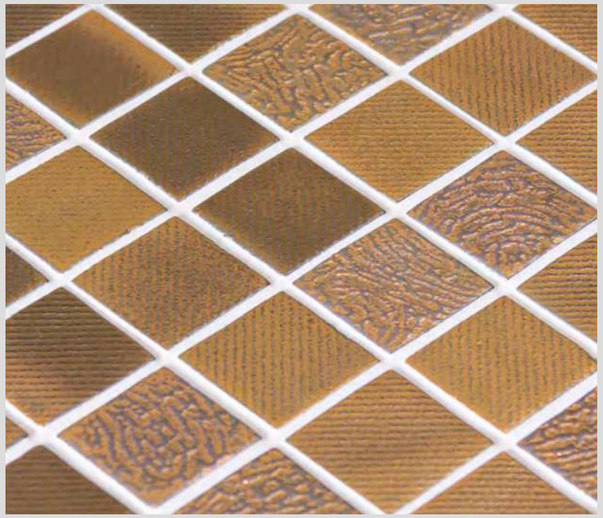

Formats

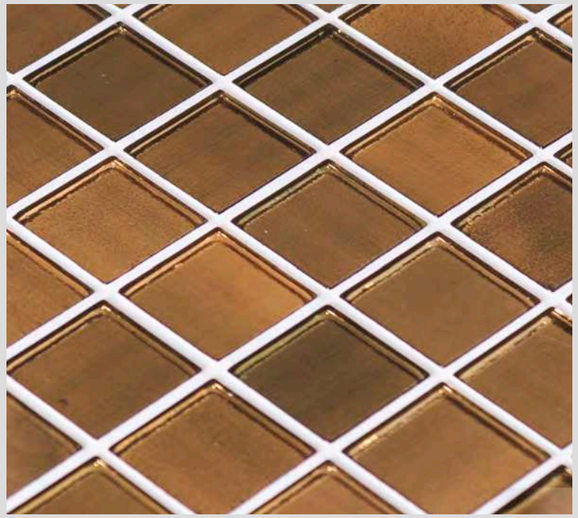

Les formats et finitions ONIX présentent des caractéristiques liées au processus de fabrication et à la nature du verre recyclé, renforçant l'identité visuelle de la mosaïque.

Les grands formats tels que PENTA, HEX XL ou PENNY XL accentuent ce caractère artisanal. Leurs légères irrégularités géométriques font partie du design et peuvent influencer l'aspect du joint, renforçant l'apparence naturelle de l'ensemble.

Finitions

Les collections intégrant des applications en or 24 carats offrent une esthétique raffinée qui nécessite de choisir correctement l'environnement d'usage. Les finitions mates et antidérapantes associent fonctionnalité et design ; la couleur du joint doit être considérée comme faisant partie du résultat esthétique final.

Types of Support

Dots

Great Grip
The dot backing system allows up to 91% of surface free for the adhesive.
El soporte por puntos deja libre hasta el 91% de la superficie para adhesivo.
Le système de montage sur points laisse jusqu'à 91% de surface libre pour l'adhésion du ciment colle.

Fast Installation
The size of 12 x 18 tesserae and the ease of installation allows up to a 27% time saving during the installation.
El mayor tamaño de 12 x 18 teselas y la facilidad de colocación de las láminas permite un ahorro del 27% del tiempo durante la instalación.
La dimension des plaques 12 x 18 permet un gain de temps de 27% durant la pose.

High Resistance
The dot backing is damp proof, so it can be stored outside and it will remain unaltered.
Este sistema por puntos es insensible a la humedad. Es posible almacenarlo en el exterior permaneciendo inalterable.
Ce système ne craint pas l'humidité. Le matériel peut donc être stocké à l'extérieur sans que celui-ci ne subisse aucunes altérations.

Maximum Flexibility
Full adaptability to any type of surface: corners, curved, irregular finishes...
Total adaptabilidad a cualquier tipo de superficie: esquinas, curvadas, acabados irregulares...
Adaptabilité totale à tout type de surface: angles, finitions courbes, irrégulières...

Minimum Thickness
An even thickness which conceals the surface of the grouting.
Un grosor homogéneo que se oculta por completo con el rejunte.
Une épaisseur homogène parfaitement cachée avec le rejoint du produit.

Visual Control
Unlike paper support, when you visualize the mosaic in the installation it is possible to create drawings and shapes.
Al contrario del soporte papel, al visualizar el mosaico en la instalación es posible crear dibujos y formas.
Contrairement à la pose sur papier belle face, lorsque vous visualisez la mosaïque dans l'installation, il est possible de créer des dessins et des formes.

Mesh

Great Grip
Mesh mounting system leaves the 75% of the back free for the adhesive.
El sistema de soporte por malla deja libre el 75% de la superficie del mosaico para el adhesivo.
Le montage de la mosaïque sur filet laisse 75% de la surface libre pour pour l'adhésif.

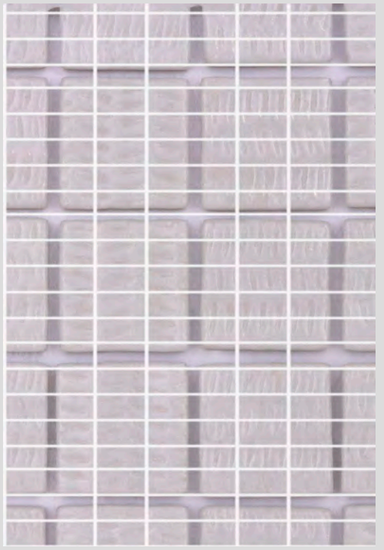

Dots Polyurethane. 91% Adhesión Area

Dots PVC. 91% Adhesión Area

Mesh Fiberglass. 75% Adhesión Area

Installation Guide

ONIX glass Mosaics can be installed on interior and exterior areas and in wet and dry locations. Please refer to the Suitability area product guide and composition and check if the mosaic is suitable for the required application.

Glass tiles should not be exposed to high abrasion and high impact and or installed over flexible surfaces. Breakages or cracks are very noticeable in glass tiles so the use of a crack suppression membrane is recommended when mosaics are installed over a mortar bed but note that this is not applicable if mosaics are used as an accent. Some substrates could continue to cure and shrink and a crack suppression membrane prevents shrinkage to affect the mosaic tiles. Install only over well-cured, stable substrates. Expansion joint are recommended when substrates change.

Grout should not be considered exclusively as a component for fixing mosaics, but as an element that will affect the overall aesthetic of the project.

The color of the grout will impact the final look pursued (higher or lower contrast).

Employing a similar grout color to that of the mosaic will provide a sense of continuity, while a contrasting grout color will accentuate the geometry of the tesserae.

Adhesives

Use of white thin set mortar adhesives is recommended. C2 as per EN 12004 norm or two component flexible acrylic or epoxy adhesives. Note that some glass mosaics may contain resins in the composition so when using a C2 adhesive make sure that it does not affect the resins and it is safe for glass mosaics containing resins. For pool and submerged installations check with adhesive manufacturers if additional steps or procedures are required.

Grouting

In order not to scratch the surface of the mosaics, non sanded grout is the recommended option. RG type and Epoxy grouts are the recommended options for installations. Float the grout into the joints to avoid scratching the surface of the mosaics. Special care and attention must be followed with the metallic and precious metals finishes to avoid scratches. Please refer to the Suitability area product guide composition and to the Tips for precious metals section and check if the mosaic selected contains these products.

ONIX advises against the use of dark colored grouts with light colored Matte non-slip mosaics, as the texture/finish may be difficult to clean during & after installation.

It is recommended to carry out a cleaning test prior to the laying of the mosaic as claims will not be accepted once installed.

Cutting and Drilling

Ceramic tiles cutting blades are not recommended for glass. Always use diamond blades designed for cutting glass on a wet saw. For drilling use of use a coring drill that is designed for glass.

Cleaning

The use of non-abrasive cleaning products is recommended.

Important note: All ONIX 100% recycled glass mosaics series are made of molten glass. Molten glass characteristics may include irregular edges and small variations in size. These characteristics are inherent to the product and to the standard production. The small size and shape variations can affect the grout joint appearance and enhance the natural aspect of these products.

Mosaic Installation Guide for Deco.

Mosaic Installation Guide for Pools.

El mosaico vítreo ONIX puede ser instalado en paredes interiores o exteriores, en zonas secas o humedas. Por favor consultar la Guía de productos y áreas de aplicación para comprobar si el producto es el adecuado para la aplicación.

El mosaico vítreo no debe ser expuesto a grandes abrasiones, grandes impactos o choques térmicos o instalarse sobre superficies flexibles. Las grietas en mosaicos son muy visibles por lo que se recomienda la utilización de membranas antigrietas cuando se instale sobre un lecho de mortero a no ser que se utilice como cenefa. Algunos sustratos pueden continuar secándose y contraerse a lo largo del tiempo y una membrana antigrietas prevendría que traslade al mosaico la contracción o el movimiento del sustrato. Instalar solo sobre sustratos bien secos y estables e instalar una junta de expansión cuando haya cambios de sustrato.

La junta no debería considerarse exclusivamente como un elemento para la fijación de piezas, sino como un aspecto a valorar en la apariencia final del proyecto.

El color de la junta afectará al resultado de la estética perseguida (mayor o menor contraste).

La utilización de una junta de color similar al del mosaico logrará proporcionar una sensación de continuidad, mientras que un color contrastado acentuará la geometría de las piezas.

Adhesivos

Usar un mortero blanco de capa fina C2 de normativa EN 12004 o un sistema bicomponente de flexible acrílico o epóxico formulado para la instalación de mosaico vítreo en paredes, tanto de interior como de exterior. Algunos mosaicos vítreos pueden contener resinas, por lo que cuando se utilice un C2 se necesita comprobar que este no afecte a las resinas. Para instalaciones en piscinas o superficies sumergidas comprobar con el fabricante de adhesivos si son requeridos algunos pasos o materiales adicionales.

Rejuntado

Utilizar junta sin arena con mosaico vítreo para evitar el rayado de la superficie. Juntas RG o Epóxicas son las recomendadas. Cuidadosamente rellenar las juntas y evitar el rallar la superficie del mosaico. Especial atención se debe tener con los materiales que contienen acabados metálicos y metales preciosos como oro. Por favor consultar la Guía de productos y áreas de aplicación y los Consejos para metales preciosos y comprobar si el mosaico elegido los contiene y seguir las instrucciones para evitar rayados y otros problemas.

ONIX desaconseja el uso de juntas oscuras en materiales con tonalidades de color claro y acabado antideslizante Matte, ya que la textura de este tipo de productos puede dificultar su limpieza durante y después de la instalación.

Se recomienda efectuar una prueba de limpieza previa a la instalación final del producto. No se aceptará ninguna reclamación una vez colocado el producto.

Cortes y perforaciones

Los cortadores o perforadores diseñados para la cerámica no están indicados para el mosaico vítreo. Para cortar utilice un disco de diamante en mojado, el disco para cortar mosaico es un disco fino con diamantes más pequeños que un disco para cortar cerámica, Para perforar un agujero use una broca que esté diseñada para cristal.

Limpieza

Se recomienda el uso de productos de limpieza no abrasivos.

Nota especial: Las series de ONIX de 100% de vidrio reciclado están hechas con cristal molturado y fundido. Las características del cristal fundido incluyen algunos bordes irregulares y pequeñas variaciones en el tamaño. Estas características son inherentes al producto y a la producción estándar. Las variaciones en forma y aspecto tienen un pequeño impacto en la apariencia final del producto rejuntado e intensifican el aspecto natural de estas series.

La mosaïque de verre ONIX peut être posée sur des murs intérieurs et extérieurs, dans des zones sèches et humides. Veuillez consulter notre Guide des produits et des zones d'application afin de vérifier que le produit est adapté à l'usage prévu.

La mosaïque de verre ne doit pas être exposée à de fortes abrasions, à des impacts importants ni à des chocs thermiques. Elle ne peut pas non plus être posée sur des surfaces flexibles. Les fissures étant très visibles sur la mosaïque, nous recommandons l'utilisation d'une membrane anti-fissures lorsque la pose se fait sur un lit de mortier, sauf en cas d'utilisation en frise. Certains supports peuvent continuer à sécher et à se rétracter avec le temps ; la membrane anti-fissures permet alors d'empêcher que ces mouvements n'affectent la mosaïque. Posez uniquement sur des supports secs et stables et prévoyez un joint de dilatation en cas de changement de support.

Le joint ne doit pas être considéré uniquement comme un élément de fixation : il constitue également un élément esthétique essentiel à la finition du projet.
La couleur du joint influence directement le rendu final recherché, avec un contraste plus ou moins marqué.

L'utilisation d'un joint de couleur similaire à celle de la mosaïque apporte une sensation de continuité ; à l'inverse, un joint d'une couleur différente crée un contraste et met en valeur la géométrie des pièces.

Adhésifs

Utiliser un mortier blanc de couche fine type C2 selon la norme EN 12004 ou un système bicomposant de flexibles acryliques ou epoxy de couleur blanche prévu pour la pose de mosaïques sur murs tant à l'intérieur qu'à l'extérieur. Certaines mosaïques de verre peuvent contenir des résines dans leur composition. Lors de l'utilisation d'un mortier C2, veuillez vous assurer que celui-ci n'affectera pas les résines et la mosaïque. Pour une pose en piscines ou submergée, veuillez vérifier auprès du fabricant d'adhésifs qu'aucune action ou matériels additionnels sont nécessaires.

Joints

Utiliser un joint sans grain pour éviter les rayures de la superficie. Les joints RG ou epoxy sont les joints recommandés. Remplir soigneusement les joints en évitant toutes rayures. Une extrême précaution est recommandée dans la manipulation de matériels aux finitions métalliques ou contenant des métaux précieux comme l'or. Veuillez consulter notre Guide de produits et zones d'applications et les conseils pour métaux précieux pour vérifier si la mosaïque choisie en contient et suivez les instructions pour éviter les rayures et autres problèmes.

ONIX déconseille l'utilisation de joints foncés sur des matériaux claires surtout en finition antidérapante et Matte, en effet la texture de ces produits peut rendre difficile le nettoyage pendant et après la mise en oeuvre.

Nous conseillons la réalisation d'un essai de nettoyage avant l'installation du produit. Aucune réclamation post installation ne pourr être acceptée.

Coupes et perforations

Les coupeuses et perforateurs pour céramiques ne sont pas indiqués pour la mosaïque de verre. Pour couper, utiliser un disque de diamant à eau, le disque pour couper la mosaïque étant un disque fin à diamants plus petit que celui utiliser dans la céramique. Pour percer un trou utiliser un foret spécial verre.

Nettoyage

L'utilisation de produits de nettoyage non abrasifs est recommandée.

NB: Les séries d'ONIX de 100% de verre recyclé sont fabriquées avec du verre broyé et fondu. Les caractéristiques de ce verre incluent donc des bords irréguliers et des petites variations dans la taille de la mosaïque. Ces caractéristiques sont inhérentes au produit et à la production standard. Les variations en forme et aspect ont un impact sur l'apparence final du produit rejointé et intensifient l'aspect naturel de ces séries.
